Title 3—THE PRESIDENT

Proclamation 3439

ENLARGING THE SAGUARO NATIONAL MONUMENT, ARIZONA

By the President of the United States
of America
A Proclamation

WHEREAS an area in Arizona possessing outstanding scientific interest because of its exceptional growth of various species of cacti has been established as the Saguaro National Monument by Proclamation No. 2032 of March 1, 1933; and

WHEREAS it appears that it would be in the public interest to add to the Saguaro National Monument certain lands lying within what is known as the Tucson Mountain Park which contain a remarkable display of relatively undisturbed lower Sonoran desert vegetation, including a saguaro stand which equals or surpasses saguaro stands elsewhere in the Nation; and

WHEREAS the addition of these lands to the monument appears essential for their effective preservation and interpretation and for the implementation of the purposes of the Saguaro National Monument; and

WHEREAS the Advisory Board on National Parks, Historic Sites, Buildings and Monuments, established pursuant to the act of August 21, 1935, 49 Stat. 666 (16 U.S.C. 463), impressed by the remarkable diversity of desert vegetation of this area and its significant wildlife qualities, has recommended its preservation by adding it to the Saguaro National Monument:

NOW, THEREFORE, I, JOHN F. KENNEDY, President of the United States of America, by virtue of the authority vested in me by section 2 of the act of June 8, 1906, 34 Stat. 225 (16 U.S.C. 431), do proclaim as follows:

Subject to valid existing rights, the lands now owned by the United States

within the exterior boundaries of the following-described tracts of land are hereby added to and reserved as a part of the Saguaro National Monument; and lands owned by the State of Arizona within such boundaries shall become and be reserved as a part of that monument upon acquisition of title thereto by the United States:

GILA AND SALT RIVER MERIDIAN, ARIZONA

T. 13 S., R. 11 E.,

Sections 13, 14, 15, 21, 22, 23, 24, 25, 26, 27, 28, 34, 35 and 36

T. 13 S., R. 12 E.,

Sections 6, 7, 8, 17, 18, 19, 20, 29, 30 and 31; comprising 15,360 acres, more or less.

The boundaries of the Saguaro National Monument are modified accordingly.

The lands reserved as a part of the Saguaro National Monument by or pursuant to this proclamation shall be administered pursuant to the act of August 25, 1916, 39 Stat. 535 (16 U.S.C. 1-3), and acts supplementary thereto and amendatory thereof and shall be subject to all the laws and regulations applicable to that monument.

Warning is hereby expressly given to all unauthorized persons not to appropriate, injure, destroy, or remove any feature or object of this monument and not to locate or settle upon any of the lands thereof.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this fifteenth day of November in the year of our Lord nineteen hundred [SEAL] and sixty-one, and of the Independence of the United States of America the one hundred and eighty-sixth.

JOHN F. KENNEDY

By the President:

DEAN RUSK,

Secretary of State.

AUTHORITY: §§ 1 to 6.368 issued under R 1753, sec. 2, 22 Stat. 403, as amended; 5 U.S.C. 631, 633.

§ 6.1 Method of filling excepted position and status of incumbents.

(a) The Commission shall decide whether the duties of any particular position are such that it may be filled as an excepted position under Schedule A, B, or C.

(b) To the extent permitted by law and the regulations in this chapter, appointments, position changes, and removals in the excepted service shall be made in accordance with any regulations or practices that the head of the agency concerned finds necessary.

(c) Persons appointed to excepted positions shall not acquire a competitive status by reason of such appointments.

NOTE: See also Part 21 of this chapter issued pursuant to the Veterans' Preference Act of 1944, as amended, which is applicable to appointments to excepted positions; Part 22 of this chapter which is applicable in case of discharges, suspensions for more than thirty days, furloughs without pay for thirty days or less, or reduction in rank or compensation of employees entitled to veteran preference; Part 9 of this chapter which is applicable to removals from positions listed in Schedule B of persons who have competitive status; § 2.502(j) of this chapter under which the Commission may authorize promotions in excepted positions in order to avoid undue hardship or inequity in individual cases of meritorious nature with regard to the restrictions of section 1310 of the Supplemental Appropriation Act, 1944 (Public Law No. 253, 82d Congress), as amended; Part 10 of this chapter which is applicable to employment with reemployment rights; and Part 20 of this chapter which is applicable to reduction in force.

SCHEDULE A

§ 6.100 Positions other than those of confidential or policy-determining character for which it is not practicable to examine.

The positions enumerated in §§ 6.1 to 6.199 are positions other than those of a confidential or policy-determining character for which it is not practical to examine and which are excepted from the competitive service and constitute Schedule A.

§ 6.101 Entire executive civil service.

(a) Positions of Chaplain and Chaplain's Assistant.

(b) Cooks, except at fixed locations such as, hospitals, quarantine stations, and penal institutions.

(c) Positions to which appointments are made by the President without confirmation by the Senate.

(d) Attorneys.

(e) Law clerk-trainee positions: Appointments under this paragraph shall be confined to graduates of recognized

law schools or persons having equivalent experience and shall be for periods not to exceed nine months pending admission to the bar. A person may have his appointment extended not to exceed an additional period of three months pending admission to the bar provided he has actually passed the bar examination by the end of the nine-month period. No person shall be given more than one appointment under this paragraph.

(f) Chinese, Japanese, and Hindu interpreters.

(g) Any position the duties of which are part-time or intermittent in which the appointee will receive compensation during his service year that aggregates not more than 40 percent of the annual salary rate for the first step of GS-3. This limitation on compensation includes any premium pay such as for overtime, night, Sunday, or holiday work. It does not, however, include any mandatory within-grade salary increases to which the employee becomes entitled subsequent to appointment under this authority. Appointments under this authority shall not be for job employment. In the Metropolitan Area of Washington, D.C., appointments under this authority shall be subject to the prior approval of the Commission.

(h) [Reserved.]

(i) [Reserved.]

(j) Subject to prior approval by the Commission, positions in Federal mental institutions when filled by persons who have been patients of such institutions and been discharged and are certified by the medical head thereof as recovered sufficiently to be regularly employed but it is believed desirable and in the interest of the persons and the institution that they be employed at the institution.

(k) Subject to prior approval of the Commission, positions requiring temporary, part-time, or intermittent employment in wage board type occupations (i.e., positions excluded from Classification Act coverage by section 202(7) of the Act) on construction or repair work, where the activity is carried on in localities where examination coverage for the positions has not been provided and where because of employment conditions there is a shortage of available candidates for the positions. Appointments under this paragraph shall not extend beyond one year, and the employment thereunder shall not exceed 180 working days a year. Seasonal employments of a recurring nature are not authorized under this paragraph.

(l) Any position directly concerned with the protection of the life and safety of the President and the members of his family.

(m) Positions without compensation provided appointments thereto meet the requirements of applicable laws relating to compensation.

(n) Positions requiring the temporary or intermittent employment of professional, scientific, or technical experts for consultation purposes.

(o) Nonsupervisory positions of custodial laborer (levels 1, 2, and 3) and general laborer (levels 2 and 3) in field establishments outside central office and regional office cities of the Commission

where examination coverage has not been provided for the positions, as follows:

(1) For temporary, intermittent, or seasonal employment (exclusive of positions covered by paragraph (k) of this section) not to exceed 180 working days a year in the Departments of Agriculture, Commerce, and Interior, in the Federal Aviation Agency, and in the International Boundary and Water Commission; or

(2) When it is specifically held by the Commission that this authority is applicable, for employment in localities that are isolated with respect to labor supply and where there is a shortage of available candidates for the positions.

(p) Any local physician, surgeon, or dentist employed under contract or on a part-time or fee basis, when, in the opinion of the Commission, appointment through competitive examination is impracticable.

(q) Positions of a scientific, professional or analytical nature when filled by bona fide members of the faculty of an accredited college or university who have special qualifications for the positions to which appointed. Employments under this provision shall not exceed 130 working days a year.

(r) Positions of a scientific, professional, or analytical nature when filled by bona fide graduate students at accredited colleges or universities provided that the work performed for the agency is to be used by the student as a basis for completing certain academic requirements toward a graduate degree. Employments under this provision may be continued only so long as the foregoing conditions are met, and the total period of such employment shall not exceed one year in any individual case: *Provided*, That such employment may, with the approval of the Commission, be extended for not to exceed an additional year.

(s) Temporary or intermittent positions at GS-7 and below when the appointees are to assist scientific, professional, or technical employees. Persons employed under this provision shall be

(1) bona fide students at high schools or accredited colleges or universities pursuing courses related to the field in which employed, or (2) bona fide high school science and mathematics teachers. No person shall be employed under this provision (1) in a position of a routine clerical type; or (2) in excess of 130 working days a year; or (3) at a compensation during a period of a year that aggregates for positions at GS-4 and below more than 40 percent of the annual salary for the first step of GS-3, and for positions at GS-5, 6, or 7 more than 33½ percent of the annual salary for the first step of the grade at which the position is classified. The grade level at which the person enters on duty determines the pay limitation applicable to him throughout his service year. These limitations on compensation include any premium pay such as for overtime, night, Sunday, or holiday work. They do not, however, include any mandatory within-grade salary increase to which the employee

becomes entitled subsequent to appointment under this authority.

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 14266 (RM-270); FCC 61-1371]

PART 3—RADIO BROADCAST SERVICES

Table of Assignments; Television Broadcast Stations in Eugene, Oreg.

1. The Commission has before it for consideration its notice of proposed rule making released September 11, 1961 proposing that Channel 20, now assigned to Eugene, Oregon, be reserved for non-commercial educational use in that community.

2. Channels 9, 13, 20, and 26 are now assigned to Eugene which has a population of 50,977 according to the 1960 U.S. Census. Commercial stations KEZI-TV and KVAL-TV have been authorized to use Channels 9 and 13, respectively. No applications have been filed for Channels 20 and 26.

3. Petitioner, the Board of Directors of School District 4, Lane County, Oregon (the Eugene Public Schools), in its petition for rule making, states that there is no channel reserved for educational use in Eugene, Oregon. Since 1958, School District 4 has been offering a series of televised programs over KVAL-TV in Eugene and since 1960 has been offering an additional series over KOAC-TV, an educational television station located at Corvallis, Oregon, which community is located about 35 miles north from Eugene.

4. In March, 1961, a Technical Facilities Committee was appointed to make a study of the cost of a new educational television station and to make recommendations to the Board of Directors of School District 4. The Board has now authorized the preparation of an application for an educational television station if a channel is reserved in Eugene for such use.

5. The only comment filed pursuant to the notice of proposed rule making was that of Liberty Television, Inc. which operates commercial station KEZI-TV on Channel 9 at Eugene. It supports the proposal stating that although it has always stood ready to make time available to the educators in Eugene and will continue to do so, it agrees that the public interest would be served by reserving Channel 20 for educational use in Eugene. No other interest has been expressed in the channel and no party opposed the proposal. For the reasons stated the Commission finds that adoption of the proposal is in the public interest.

6. Authority for the amendment adopted herein is contained in sections 4 (i) and (j), 303, and 307(b) of the Communications Act of 1934, as amended.

7. In view of the foregoing: *It is ordered*, That effective December 26, 1961, the Table of Assignments contained in Section 3.606 of the Commission's rules and regulations is amended, with respect to the community named, to read as follows:

City	Channel No.
Eugene, Oreg-----	9+, 13, *20+, 26

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interpret or apply secs. 303, 307, 48 Stat. 1082, 1083; 47 U.S.C. 303, 307)

Adopted: November 15, 1961.

Released: November 17, 1961.

PART 7—STATIONS ON LAND IN THE MARITIME SERVICES

PART 8—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

Public Coast Stations and Ship Stations

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 15th day of November 1961:

The Commission having under consideration the above-captioned matter;

It appearing that no comments concerning the notice of proposed rule making have been filed within the time provided for such filing; and

It further appearing that no reason appears why the amendments should not be adopted as proposed and that the public interest would be served thereby:

It is ordered, That pursuant to the authority contained in section 303(r) of the Communications Act of 1934, as amended, Parts 7 and 8 of the Commission's rules are amended as set forth below, effective December 26, 1961.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U.S.C. 303)

Released: November 17, 1961.

FEDERAL COMMUNICATIONS
COMMISSION,
[SEAL] BEN F. WAPLE,
Acting Secretary.

A. Part 7 is amended as follows:

1. Section 7.306(d) is amended to read as follows:

§ 7.306 Availability of frequencies below 30 Mc.

(d) The frequency 2638 kc is available for assignment as a working frequency for class II public coast stations for the transmission of safety and operational communications under the following conditions:

(1) No other frequency in the band 1600-5000 kc is available for assignment to public coast stations at the proposed location;

(2) The proposed station is to be located within the continental United States (excluding Alaska) not less than 100 miles from the seacoast, the shores of navigable bays and sounds adjacent to the open sea, the shores of the Great Lakes, the Saint Lawrence River, the Illinois and Ohio Rivers, and the Mississippi River south of Hastings, Minnesota;

(3) The use of the frequency shall be confined exclusively to safety and operational communications;

(4) Except for safety communications, use of the frequency shall be limited to day only: *Provided*, That operational communications may be continued beyond such time to the extent necessary for compliance with the provisions of § 7.186(b); and

(5) An affirmative showing is submitted with the original application and each renewal application evidencing the need for the desired safety and operational communications and establishing the fact that such communications cannot be provided by the use of frequencies above 156 Mc.

B. Part 8 is amended as follows:

1. Section 8.354(b) is amended to read as follows:

§ 8.354 Frequencies below 5000 kc for public correspondence.

(b) The frequency 2638 kc is authorized to public ship stations as a working frequency to communicate with public coast stations authorized to operate on 2638 kc for the transmission of safety and operational communications.

(1) Except for safety communications, communications with such public coast stations shall be limited to day only: *Provided*, That operational communications may be continued beyond such time to the extent necessary for compliance with the provisions of § 8.183.

(2) Except in event of distress, use of the frequency 2638 kc by stations on board aircraft for communication with coast stations is not authorized.

§ 8.804 [Deletion]

2. Section 8.804 is deleted in its entirety.

PART 7—STATIONS ON LAND IN THE MARITIME SERVICES

PART 8—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

PART 14—PUBLIC FIXED STATIONS AND STATIONS OF THE MARITIME SERVICES IN ALASKA

Survival Craft Stations and Frequencies and Other Particulars for Coast and Ship Stations

1. On February 10, 1961, the Commission released a notice of proposed rule

making in the above captioned matter. The notice of rule making was published in the FEDERAL REGISTER on February 28, 1961 (26 F.R. 38). The time for filing comments and reply comments was specified as March 13 and March 23, 1961, respectively. These dates were subsequently changed by Orders released on February 24, March 9, and March 20, 1961. The final dates for filing comments and reply comments of May 20 and May 30, 1961, respectively, for portions of the docket concerning Mississippi River area frequencies and Alaska frequencies, and April 3 and April 13, 1961, respectively, for the other portions of the Docket, have expired.

2. The notice of proposed rule making concerning the subject Docket stated that no proposed amendment would be made effective except as permitted by and under the terms of the President's ratification of the Geneva Radio Regulations (1959) (GRR), with the advice and consent of the Senate. The GRR have been ratified by the United States without reservation and the rules can now be made effective.

3. Comments in the proceeding were filed by the American Merchant Marine Institute, Inc. (AMMI), American Waterways Operators, Inc. (AWO), Lorain County Radio Corporation (Lorain), Mackay Radio and Telegraph Company Inc. (Mackay), Pacific American Steamship Association (PASA), and RCA Communications, Inc. (RCAC).

4. The AWO in no way opposed the proposed rule making.

5. Both Mackay and RCAC commented about listings of frequencies and areas in proposed § 7.206. The comments have been incorporated in the attached rules. In addition, Mackay specifically supported ship radiotelegraph assignments as contained in § 8.801 (a), (b), (c), and (d) of the proposal.

6. The AMMI and PASA commented about the statement in the notice of proposed rule making that frequencies between 4 and 27.5 Mc assignable under the GRR for wide-band telegraphy, facsimile and special transmission systems (wide band) would be reserved exclusively for United States Government stations. The AMMI expressed the belief that this report and order should clearly indicate that a permanent reservation of this radio frequency space for United States Government stations is not involved. PASA was strongly opposed to exclusive reservation of the wide-band frequencies to United States Government stations, and stated that the use of wide-band frequencies by nongovernment stations is not far off. It proposed that not more than half of the available wide-band frequencies be reserved for Government stations.

7. While it has been stated that the requirement for the use of wide-band frequencies by nongovernment stations is not far off, it appears that all present requirements can be satisfied through the use of frequencies available herein to ship stations. This is not to be construed, however, to preclude future rule making, when such requirements de-

velop, looking toward the use of the wide-band frequencies by nongovernment ship stations. Therefore, at this time, the rules in regard to the availability of wide-band frequencies are adopted as proposed.

8. Lorain, while in support of the proposed rule making, was concerned with the problem of making frequency changes by the proposed date May 1, 1961. As a practical matter this problem no longer exists since the coast and ship stations have already shifted to the new frequencies pursuant to a general temporary authorization issued by the Commission. Accordingly, the rules, as adopted, do not provide a period for changing frequencies except in the case of the Mississippi River area and Alaska, in which case the originally proposed changeover period of approximately 6 months has been allowed.

9. Concurrent with the adoption of this report and order, the Commission has issued an order modifying certain ship station licenses so that they will reflect the new Geneva frequencies. Under the terms of such order, the affected licensees are authorized to use the new frequencies until issuance of a modified or renewal license in response to an application filed in the normal course of the licensee's activities.

10. Editorial changes have been made in the attached rules.

11. In connection with revision of license form 501, §§ 8.322(b), 8.323(d) and 8.324(e) were amended after the issuance of the proposed rules in this docket and contain texts different from those proposed. This fact was taken into account in the rules herein finalized, and the sections specified in the preceding sentence are further amended, at this time, to read as they were originally set forth in the proposed rule making.

12. In view of the foregoing, the Commission believes that the public interest will be served by adopting the attached amendments.

13. It is ordered, This 8th day of November 1961, that pursuant to the authority contained in section 303 (c), (f), (g), and (r) of the Communications Act of 1934, as amended, Parts 7, 8, and 14 of the Commission's rules are amended as set forth below, effective December 22, 1961.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U.S.C. 303)

Released: November 14, 1961.

FEDERAL COMMUNICATIONS
COMMISSION,

[SEAL] BEN F. WAPLE,
Acting Secretary.

A. Part 7 is amended as follows:

1. Section 7.134(b) is amended to read:

§ 7.134 Authorized transmitter power.

(b) For coast stations using telegraphy on frequencies below 27,500 kc, the maximum authorized transmitter power shall be:

Frequency-band	Maximum authorized transmitter-power (with or without modulation) (kilowatts)
14 kc to 150 kc.....	80
150 kc to 515 kc.....	40
2035 kc to 2065 kc.....	6.6
4000 kc to 7000 kc.....	10
8000 kc to 9000 kc.....	20
12,000 kc to 27,500 kc.....	30

2. Paragraphs (a) and (b) of § 7.206 are amended to read as follows:

§ 7.206 Assignable frequencies.

(a) Each of the specific frequencies in kilocycles hereinafter designated in this paragraph may be licensed as an assigned frequency for use by coast stations employing telegraphy and located in Puerto Rico, the State of Hawaii or within the indicated general portion of the seacoast area of the continental United States, excluding Alaska, subject to and in accordance with the provisions of paragraph (b) (4) of this section and Subpart E of this part, and upon the express condition that interference shall not be caused to any service or station which, in the discretion of the Commission, may have priority on the frequency or frequencies involved: *Provided*, That the use of each of these frequencies may be restricted by the Commission to specific areas or locations in order to avoid or minimize interference between stations: *Provided further*, That frequencies below 150 kc are assignable to Class I coast stations only; frequencies above 5000 kc are assignable primarily to Class I coast stations, and secondarily to Class II coast stations serving inland waters of the United States (including the Great Lakes) subject to showing of need therefor and on condition that interference shall not be caused to any Class I coast station:

(2) In addition to the frequency assignment designated for telegraphy in the license of a coast station, such station when communicating by telegraphy with a mobile or coast station of the United States Government may, on the condition that its emission-bandwidth and frequency tolerance shall be within the respective limits thereof permitted for the government station, transmit on a radio-channel assigned to the United States Government when authorized or directed to do so by the government station responsible, or by the government department or agency for which the radio-channel is authorized. The coast station assigned frequency, the class of emission, and the permissible class of traffic on such radio-channel shall be designated by the government station, or the responsible government department or agency.

¹ These frequencies are those which may be designated in applications for coast station authorizations.

² With respect to each specific date set forth, the associated limitations or condition imposed shall terminate or begin as applicable, at 3 a.m. eastern standard time.

³ This carrier frequency is to be made available by the Commission, for use (on a 24-hour basis except where specific hours of use are designated) by the maritime mobile service for ship-shore communication in respect to the particular coast station areas designated, on a specific beginning date to be designated in future rule-making as soon as practicable after its use (or the use of its associated transmitting or receiving frequency) by other radio services is terminated or is reduced to the extent necessary to avoid harmful interference to or from the maritime mobile service.

4. In § 8.133, paragraph (c) (1) is amended to read:

§ 8.133 Authorized emission-bandwidths.

(c) (1) The authorized emission-bandwidths for the classes of emissions authorized in § 8.132 shall be as follows:

Class of emission	Emission designator	Emission-bandwidth authorized for transmission of intelligence
A0	None	None.
A1	0 16 A1	27.5 cycles per second.
A2	2 66 A2	27.5 cycles per second.

¹ In the case of class F1 emission, the emission designator will vary according to the frequency deviation, the number of words per minute, and other factors involved.

² In the case of class P0 emission, the emission designator and the authorized emission-bandwidth will vary according to the specific values of the controlling technical factors. Reference may be made to individual station authorizations which specify therein the respective emission designator and the respective authorized emission-bandwidth. Note also the provisions of § 8.131(e) concerning authorized frequency tolerance for radar transmitters.

5. In § 8.322, paragraph (b) is amended to read as follows:

§ 8.322 Frequencies for use in distress.

(b) The frequency 8364 kc is for use by survival craft stations equipped to transmit within the band 4000 to 27500 kc and desiring to establish with stations of the maritime and aeronautical mobile services communications relating to search and rescue operations.

6. In § 8.323, paragraph (d) is amended to read as follows:

§ 8.323 Frequencies for calling.

(d) Calling frequencies in the band 2 to 27.5 Mc for ship and aircraft stations are listed in Table 1b of § 8.801. Ship stations are authorized to use the calling frequencies corresponding to the symbols designated on the station license.

7. In § 8.324, paragraphs (d) and (e) are amended and a new paragraph (h) is added to read as follows:

§ 8.324 Frequencies for working.

(d) Insofar as practicable, ship stations shall use frequency assignments within the band 3 Mc to 27.5 Mc only when other frequency assignments will not provide effective communications.

(e) Working frequencies in the band 2 to 27.5 Mc for high traffic ships and aircraft are listed in Table 1a and for low traffic ships in Table 1c of § 8.801. Ship stations are authorized to use the working frequencies corresponding to the symbols designated on the station license. The frequencies for working in each band designated by the letter "A" or "B" (see § 8.801(h)) suffixed to the frequency column symbol are the primary frequencies to be used for working. B. Part 8 is amended as follows:

1. In § 8.3, paragraphs (b) and (d) are amended and a new paragraph (j) is added to read as follows:

§ 8.3 Maritime mobile service.

(b) *Maritime mobile service.* A mobile service between coast stations and ship stations, or between ship stations, in which survival craft stations may also participate. (Aircraft stations, when transmitting on frequencies allocated to the maritime mobile service, may communicate in this service with ship stations and coast stations.)

(d) *Ship station.* A mobile station in the maritime mobile service located on board a vessel, other than a survival craft, which is not permanently moored.

(j) *Survival craft station.* A mobile station in the maritime or aeronautical mobile service intended solely for survival purposes and located on any lifeboat, life raft or other survival equipment.

2. In § 8.131, paragraph (b) (3) through (6) is amended to read as follows:

§ 8.131 Authorized frequency tolerance.

(d) *Table 2.* Ship radiotelegraph frequency assignment plan.

(e) *Procedures and tables.* The following procedures and tables may be used in applying for license for the frequencies listed in Tables 1a, 1b, and 1c insofar as these frequencies are consistent with the provisions of this chapter. Frequencies, assigned in accordance with this section to a station on a particular vessel, may be retained at the option

of the applicant despite subsequent relicensing of the station to a different licensee. Frequencies appearing in the tables may only be used in the manner and to the extent permitted elsewhere in this part.

(f) *Radiotelegraph, 2 Mc to 27.5 Mc.* The applicant must consult Table 2 to determine the frequency column symbols which are available for assignment. The frequencies designated by the symbols shown in Table 2 may be determined from Tables 1a, 1b, and 1c which list all of the frequencies in each series.

(g) *Calling frequencies.* Application may be made for one calling frequency column symbol from the "C" series, which represents one frequency in each of the 2, 4, 6, 8, 12, 16 and 22 Mc bands, for each ship. If more than one symbol of the "C" series is allocated for a particular licensee, the general principle to follow is to apply for the first vessel under the first symbol, the second symbol for the second vessel, etc., until the allocated symbols are exhausted. The procedure is then repeated, beginning again with the first symbol.

(h) *Low traffic ship working frequencies.* Application may be made for one low traffic working frequency symbol from the "L" series for each low traffic ship, which will include one frequency from the 2 Mc and two frequencies from the 4, 6, 8, 12, and 22 Mc bands. A primary frequency to be used for working in each frequency band having two frequencies available must be indicated by suffixing the frequency symbol with the letter "A" for the lower frequency in each band and the letter "B" for the higher frequency in each band. If more than one symbol of the "L" series is allocated for a particular licensee, the frequency symbols, to include the suffix "A" or "B", should be applied for in rotation for successive vessels as for calling frequencies, otherwise either "A" or "B" may be applied for.

(i) *High traffic ship working frequencies.* High traffic ship working frequencies are normally available only to passenger ships but may be assigned to whaling factory vessels, tankers above 40,000 gross tons, and cargo ships above 12,500 gross tons in lieu of low traffic frequencies if a satisfactory showing is submitted indicating that the vessel concerned handles a large volume of traffic. Application may be made for the

number of passenger ship working frequencies which, in the best judgment of the applicant, will be essential for the traffic volume of the particular vessel. Frequency column symbols shall be taken from the "H" series, with a minimum of two symbols. If more than two symbols of the "H" series are allocated for a particular licensee, the frequency symbols should be applied for in rotation for successive vessels as for calling frequencies, except that the first symbol for each vessel must be the one after the last of the series of two or more symbols of the previous vessel.

² Applicants other than the companies listed must apply for the frequency column symbols shown, in alphabetic groups according to the first letter of their name. As an example, if the applicant's name begins with A, B, or C, he may apply only for frequency column symbols C1, C5 or C8, H2 and H11 for a high traffic ship, or C1, C5 or C8 and L22 for a low traffic ship. For this purpose, the alphabetic group of first letters of the name will be selected by using the first word of a trade name omitting "The"; the last name of a personal name; or the last name of the first person appearing in a series of personal names. As examples, the following names would all apply for the third, or "M," group, C1, C5 or C8, H2 and H11 or L30: Marine Communications, Inc.; A. B. Miller and Co.; C. D. Munsey; E. F. Murphy; Alfred Abrams, et al.

§ 8.802 [Deletion]

12. Section 8.802 is deleted.

C. Part 14 is amended as follows:

1. In § 14.259(a)(3), subdivision (i) and the introductory text of subdivision (ii) are amended to read:

§ 14.259 Frequencies for ship-shore and ship-to-ship communication by telegraphy to telephony in all zones.

(a) * * *

(3)(i) Primarily for communication by telephony between public coast stations and public ship stations on board any type of vessel, during the hours from 6:00 a.m. to 9:00 p.m. local standard time only—4390.2, 4386.2;¹

(ii) Additionally the frequencies 5390.2 and 4386.2¹ kc may be used on a secondary basis for communication by telephony, during the hours from 6:00 a.m. to 9:00 p.m. local standard time only—

2. In § 14.264, paragraphs (a) and (k) and the note following paragraph (r) are amended to read:

§ 14.264 Frequencies assigned for use in particular zones.

(a)(1) Each of the following frequencies in kilocycles is authorized as an

assigned frequency for use by public coast stations and ship stations employing telegraphy and/or telephony in accordance with Subpart E of this part: *Provided*, That telephony only shall be employed on the frequencies 4409.4, 4434.9, 4406.9¹ and 4434.5¹ kc. With respect to the operation of coast stations, these frequencies are authorized for use (below 3400 kc on a shared basis with Alaska-public fixed stations) by coast stations located only in the zone or zones designated herein opposite the respective frequency; and for use in accordance with paragraph (1) of this section, subject to the specific conditions and limitations designated herein by identifying reference placed opposite the respective frequency in each column.

(2) Zones in which transmission on the particular frequency is authorized subject to the limiting conditions specified by references to following paragraphs of this section, including paragraph (1) of this section in reference to each frequency:

Zone 1	Zone 2	Zone 3	Zone 4	Zone 5	Zone 6

(k)(1) The frequencies 4409.4, 4434.9, 4406.9¹ and 4434.5¹ kc are authorized for telephony exclusively; for use during the hours from 6:00 a.m. to 9:00 p.m. local standard time only. Such use of the frequencies 4434.9 and 4434.5 kc is authorized on condition that harmful interference shall not be caused to the service of any coast station located in the Great Lakes area to which this frequency is assigned as a carrier frequency for transmission.

(2) Additionally, public coast stations may communicate, on a secondary basis, during the hours from 6:00 a.m. to 9:00 p.m. local standard time only, on 4409.4, 4434.9, 4406.9¹ or 4434.5¹ kc for the exchange of public correspondence with other public coast stations within not less than 50 miles; under conditions which make it necessary to use either of these frequencies for this purpose in lieu of an assigned frequency specifically designated in Subpart F of this part for fixed service; and on condition that priority shall be given at all times to ship-shore communication.

PART 8—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES**Modification of Licenses of Certain Ship Stations**

In the matter of modification of licenses of passenger ship stations presently authorized to use radiotelegraph frequencies between 2 Mc and 27.5 Mc; modification of licenses of ship stations presently authorized to use radiotelephone frequencies between 4 Mc and 27.5 Mc for communications with coast stations located at: Dixon, California; Kahuku, Hawaii; Lawrenceville and Ocean Gate, New Jersey; Ojus, Florida; and on the Great Lakes.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 8th day of November 1961;

The Commission having under consideration the modification of the above-mentioned licenses of ship station licensees presently authorized to use radiotelegraph and radiotelephone frequencies in accordance with the Commission's rules and the Atlantic City (1947) Table of Frequency Allocations, so as to include in all such licenses authority to operate on the frequencies which are allotted in the Geneva Radio Regulations (1959);

It appearing, that as an outgrowth of rule-making proceedings in Docket 13952, the lists of frequencies in Part 8 of the Commission's rules, assignable to passenger ship stations employing telegraphy between 2 Mc and 27.5 Mc and to ship stations employing telephony between 4 Mc and 27.5 Mc for communication with coast stations listed in the caption of this Order, were recently amended to conform the frequencies in

¹ Not available after June 30, 1962.

those bands with the Geneva Radio Regulations (1959); and

It further appearing, that the GRR allocation plan has been in use on an international basis since on or about May 1, 1961, that the immediate and uninterrupted use of the newly allocated public correspondence frequencies by United States ships and coast stations is necessary to avoid operational and interference problems, that adherence to normal procedures for written applications for modification of outstanding licenses or other formal modification procedures would result in an interruption to usage of such frequencies by the licensee affected and would be to the public detriment, and, therefore, an emergency exists:

It is ordered, Pursuant to section 308 (a) (3) of the Communications Act of 1934, as amended, that effective March 22, 1962, the licenses of passenger ship stations using radiotelegraph between 2 Mc and 27.5 Mc and ship stations using radiotelephony between 4 Mc and 27.5 Mc for communications with coast stations located at Dixon, California; Kahuku, Hawaii; Lawrenceville and Ocean Gate, New Jersey; Ojus, Florida (on the frequency 4123.6 kc only); and coast stations located on the Great Lakes, are modified to authorize the frequencies made available under Part 8 as a result of the Report and Order in Docket No. 13952;

It is further ordered, That the authorizations herein ordered are hereby authorized in accordance with the applicable provisions of Part 8 of the Commission's rules;

It is further ordered, That the foregoing general authorization shall be for a period which will extend from March 22, 1962, until termination of the present license authority, of ship stations affected, by the issuance of a modified or renewal license in response to an application therefor; and

It is further ordered, That all rule provisions in Part 8 of the Commission's rules which are inconsistent with the actions herein ordered are hereby waived for the period specified in the foregoing ordering clause.

PART 9—AVIATION SERVICES

Transmission of Radio Signals From Aircraft to Activate Lights

1. Notice of proposed rule making in the above-entitled matter was released by the Commission on April 7, 1961. This notice, which made provision for the filing of comments by May 15, 1961, was duly published in the FEDERAL REGISTER on April 12, 1961 (26 F.R. 3114).

2. Comments in this proceeding were filed by Aerospace Flight Test Radio Coordinating Council (AFTRCC), AiRadio Corporation, Aircraft Owners and Pilots Association (AOPA), Alaska Aviation Radio, Inc. (AARI).

3. Alaska Aviation Radio, Inc., favors the proposed rule but requests that its scope be expanded to include unattended radiobeacons in Alaska. This request is outside the scope of the present rule-making which parallels recommendations contained in the Radio Technical Commission for Aeronautics (RTCA), SC-56 Report, "Activation of Airport Lights by Radio Transmissions from Aircraft," and, therefore, is not included in the present rules.

4. AiRadio Corporation supported the proposal but foresees problems in the use of 122.8 Mc for the purpose of activating airport lights. As an alternative to eliminate the possibility of unintentional activation of the lights at more than one airport and to eliminate congestion on 122.8 Mc, the assignment of discrete frequencies in the band 121.60-121.75 Mc/s was suggested. In addition, AiRadio also indicated that if activation of airport lights was to be on a noninterference basis that it doubted that any installation could be practically completed to adhere to this standard.

5. The Commission precludes interference to existing communications on the frequency 122.8 Mc by specifying that use of this frequency for the control of airport lights would be on the condition that no harmful interference is caused to authorized voice communications. Further, where there is a possibility of interference on 122.8 Mc, the rules, as adopted herein, provide for the use of the utility frequencies for this same purpose. With regard to the possibility that an aircraft operator calling for lights at one airport might turn on the lights at many or other airports which he did not intend to use, it is anticipated that receiving installations for activation of airport lights will be established to operate on a separate code for each installation. Adherence to this practice should minimize the possibility of multiple activations. In this connection, the rule making and the Commission's responsibility goes to the transmissions and not the receiving installations. Assignment of discrete frequencies, as proposed by AiRadio Corporation, does not appear to be feasible for the reasons that: (1) This would amount to the assignment of receiving frequencies and (2) the utility frequencies are available for use by aircraft stations assigned either private aircraft or aircarrier aircraft frequencies and assignment of discrete frequencies would appear to be a restriction not ordinarily imposed nor warranted.

6. The comments of AFTRCC and AOPA gave unqualified support to the proposed rule making.

In view of the foregoing: *It is ordered*, Pursuant to the authority contained in sections 303 (b), (c), (g), and (r) of the Communications Act of 1934, as amended, that, effective December 28, 1961, Part 9 of the Commission's rules is amended as set forth below, and

It is further ordered, That the proceedings in Docket No. 14027 are hereby terminated.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U.S.C. 303)

1. Paragraph (g) of § 9.312 is amended to read as follows:

§ 9.312 Frequencies available.

* * * * *

(g) 121.60, 121.65, 121.70, 121.75, 121.80, 121.85, 121.90, and 121.95 megacycles: Airport utility frequencies. The frequency 121.60 Mc may be used by aircraft radio stations for airport utility communications on the condition that no harmful interference is caused to search and rescue operations in the locale involved. In addition to their use for airport utility communications, these frequencies may be used for the control of airport lights by the transmission of brief keyed RF signals from aircraft on the condition that no harmful interference is caused to authorized voice communications.

2. Paragraph (e) of § 9.331 is amended to read as follows:

§ 9.331 Frequencies available.

* * * * *

(e) 122.8 megacycles; 6A3 emission: Private aircraft stations to aeronautical advisory stations and between private aircraft stations while in flight. Permissible communications are defined in § 9.1004. In addition, brief keyed RF signals may be transmitted for the control of airport lights from private aircraft on the condition that no harmful interference is caused to authorized voice communications.

PART 9—AVIATION SERVICES

Additional Frequencies for Civil Air Patrol Stations

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 15th day of November 1961;

The Commission having under consideration the amendment of § 9.912, Part 9—Aviation Services, to make available the frequency 4602.5 and 4630 kc/s for assignment to land and mobile stations of the Civil Air Patrol in certain states of the United States; and

It appearing that a need exists for these additional frequencies; and

It further appearing that notice of proposed rule making in the above-entitled matter was released on July 7, 1961; and

It further appearing that the notice which made provision for filing comments by August 15, 1961 was duly published in the FEDERAL REGISTER on July 12, 1961 (26 F.R. 6248); and

It further appearing that no comments were received in this proceeding; and

It further appearing that the authority for the issuance of this order is contained in section 303 (c), (d), (f), (h), and (r) of the Communications Act of 1934, as amended:

It is ordered, That Part 9 of the Commission's rules be amended effective December 28, 1961, as set forth below; and

It is further ordered, That the proceedings in Docket No. 14186 are hereby terminated.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U.S.C. 303)

FEDERAL COMMUNICATIONS
COMMISSION,

[SEAL] BEN F. WAPLE,
Acting Secretary.

Section 9.912 is amended to read as follows:

§ 9.912 Frequencies available.

The following frequencies are available for assignment to Civil Air Patrol land and mobile stations within the United States, its territories and possessions, except as otherwise provided in this section.

(a) 2374 kc, A1, A2, A3 emission, 400 watts maximum power.

(b) 4467.5 kc, A1, A2, A3 emission, 400 watts maximum power. Assignment of this frequency is limited to stations in the District of Columbia and the following States:

Alabama.	New Jersey.
Connecticut.	New York.
Delaware.	North Carolina.
Florida.	Pennsylvania.
Georgia.	Rhode Island.
Maine.	South Carolina.
Maryland.	Tennessee.
Massachusetts.	Vermont.
Mississippi.	Virginia.
New Hampshire.	West Virginia.

(c) 4507.5 kc, A1, A2, A3 emission, 400 watts maximum power. This frequency is available for assignment to stations in all areas of the continental United States except Alaska and those listed in paragraph (b) of this section.

(d) 4585 kc, A1, A2, A3 emission, 400 watts maximum power.

(e) 4602.5 kc, A1, F1, A3 emission, 400 watts maximum power. Assignment of this frequency is limited to stations in the following States:

Colorado.	Montana.
Idaho.	Ohio.
Illinois.	Utah.
Indiana.	Wisconsin.
Kentucky.	Wyoming.
Michigan.	

(f) 4630 kc, A1, F1, A3 emission, 400 watts maximum power. Assignment of this frequency is limited to stations in the following States:

Arizona.	New Mexico.
Arkansas.	Oklahoma.
Louisiana.	Texas.

(g) 26620 kc, A1, A2, A3 emission, 250 watts maximum power. Assignment of this frequency is limited to stations in the State of Hawaii.

(h) 143.91 Mc, A1, A2, A3 emission, 10 watts maximum power. Assignment of this frequency is limited to stations in the continental United States (excluding Alaska).

(i) 148.14 Mc, A2, A3 emission, 50 watts maximum power.

Title 7—AGRICULTURE

Chapter VII—Agricultural Stabiliza- tion and Conservation Service (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 725—BURLEY, FLUE-CURED, FIRE-CURED, DARK AIR-CURED AND VIRGINIA SUN-CURED TOBACCO

Subpart—Proclamation of a National Marketing Quota for Flue-Cured Tobacco for Each of the Three Marketing Years Beginning July 1, 1962; and Announcement and Ap- portionment of the National Marketing Quota for Flue-Cured Tobacco for the 1962-63 Marketing Year

§ 725.1301 Basis and purpose.

(a) Sections 725.1301 and 725.1302 are issued (1) to proclaim a national marketing quota for flue-cured tobacco for each of the three marketing years beginning July 1, 1962; (2) to establish the reserve supply level and the total supply of flue-cured tobacco for the marketing year beginning July 1, 1961; (3) to announce the amount of the national marketing quota for flue-cured tobacco for the marketing year beginning July 1, 1962; and (4) to apportion such national marketing quota among the several States. The findings and determinations by the Secretary contained in § 725.1302

have been made on the basis of the latest available statistics of the Federal Government, and after due consideration of data, views, and recommendations received from flue-cured tobacco producers and others as provided in a notice (26 F.R. 9651) given in accordance with the Administrative Procedure Act (5 U.S.C. 1003).

(b) Since the Agricultural Adjustment Act of 1938, as amended, requires the holding of a referendum of flue-cured tobacco producers within 30 days after proclamation of the quota to determine whether such producers favor marketing quotas and since farmers need to know the 1962 allotments for their farms before voting in the referendum, it is hereby found that compliance with the 30-day effective date provision of the Administrative Procedure Act is impracticable and contrary to the public interest. Therefore, the proclamation included herein, and the announcement and apportionment of the national marketing quota for flue-cured tobacco for the 1962-63 marketing year contained herein shall become effective upon the date of filing with the Director, Office of the Federal Register.

§ 725.1302 Proclamation of a national marketing quota for flue-cured tobacco for the three marketing years beginning July 1, 1962, and findings and determinations with respect to the national marketing quota for flue-cured tobacco for the marketing year beginning July 1, 1962.

(a) *Proclamation.* Since the 1961-62 marketing year is the last of three consecutive years for which marketing quotas previously proclaimed will be in effect on flue-cured tobacco, a national marketing quota for such kind of tobacco for each of the three marketing years beginning July 1, 1962 is hereby proclaimed pursuant to section 312(a) (2) of the Act.

(b) *Reserve supply level.*¹ The reserve supply level for flue-cured tobacco for the marketing year beginning July 1, 1961 is 3,089.0 million pounds, calculated, as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 795.0 million pounds and a normal year's exports of 458.0 million pounds.

(c) *Total supply.* The total supply of flue-cured tobacco for the marketing year beginning July 1, 1961, is 3,343.3 million pounds, consisting of carryover of 2,090.1 million pounds and estimated 1961 production of 1,253.2 million pounds.

(d) *Carryover.* The estimated carryover of flue-cured tobacco at the beginning of the marketing year for such tobacco beginning July 1, 1962, is 2,074.3 million pounds, calculated by subtracting the estimated disappearance for the marketing year beginning July 1, 1961, of 1,269.0 million pounds from the total supply of such tobacco.

(e) *National marketing quota.* The amount of flue-cured tobacco which will make available during the marketing year beginning July 1, 1962, a supply of

¹ Rounded to the nearest tenth of a million pounds.

flue-cured tobacco equal to the reserve supply level of such tobacco is 1,014.7 million pounds, and a national marketing quota of such amount is hereby announced. It is determined, however, that a national marketing quota in the amount of 1,014.7 million pounds would result in undue restrictions of marketings during the 1962-63 marketing year and such amount is hereby increased by 15 percent. Therefore, the amount of the national marketing quota for flue-cured tobacco in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning July 1, 1962, is 1,166.9 million pounds.

(f) *Apportionment of the quota.* The national marketing quota is hereby apportioned among the several States pursuant to section 313(a) of the Agricultural Adjustment Act of 1938, as amended, and converted into State acreage allotments in accordance with section 313(g) of the Act as follows:

State	Acreage allotment
Alabama	509.53
Florida	15,198.56
Georgia	72,685.21
North Carolina	471,416.34
South Carolina	82,966.04
Virginia	71,680.16
Reserve ¹	1,790.82

¹ Acreage reserved for establishing allotments for new farms.

(Secs. 301, 312, 313, 375, 52 Stat. 38, 46, 47, 66, as amended; 7 U.S.C. 1301, 1312, 1313, 1375)

Effective date: Date of filing with the Director, Office of the Federal Register.

Signed at Washington, D.C., on November 20, 1961.

Secretary.

Title 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

Miscellaneous Amendments to Chapter

Chapter I of Title 8 is amended in the following respects:

PART 103—POWERS AND DUTIES OF SERVICE OFFICERS

The fifth item of paragraph (c) of § 103.7 is amended so that when taken with the introductory material it will read as follows:

§ 103.7 Records and fees.

(c) *Additional fees.* In addition to the fees enumerated in sections 281 and 344 of the Act, the following fees and charges are prescribed.

For filing application for alien registration receipt card in lieu of one lost, mutilated or destroyed, or in changed name-----\$5.00

PART 212—DOCUMENTARY REQUIREMENTS: NONIMMIGRANTS; WAIVERS; ADMISSION OF CERTAIN INADMISSIBLE ALIENS; PAROLE

Paragraph (b) of § 212.7 is amended to read as follows:

§ 212.7 Waiver of certain grounds of excludability.

(b) *Section 212(f).* An alien who is excludable and seeks a waiver under section 212(f) of the Act, as amended September 26, 1961, shall file an application on Form I-601 at the consular office considering the application for a visa.

Part 223 is amended to read as follows:

PART 223—REENTRY PERMITS

- Sec.
223.1 Application.
223.2 Extensions.
223.3 Expired permits.

AUTHORITY: §§ 223.1 to 223.3 issued under sec. 103, 66 Stat. 173; 8 U.S.C. 1103. Interprets or applies sec. 223, 66 Stat. 194; 8 U.S.C. 1203.

§ 223.1 Application.

An application for a reentry permit under the provisions of section 223 of the Act shall be submitted on Form I-131. The applicant shall be notified of the decision and if the application is denied of the reasons therefor and of his right to appeal in accordance with the provisions of Part 103 of this chapter.

§ 223.2 Extensions.

An application for extension of a reentry permit shall be submitted to the office having jurisdiction over the applicant's place of residence in the United States or to the immigration officer stationed abroad having jurisdiction over the place where the applicant is temporarily sojourning prior to the expiration of the period of validity of the reentry permit. The application shall be in writing and shall state the applicant's name and address in the United States; when, where, and the manner in which he departed from the United States; the port of landing and the date of his arrival abroad; the countries visited by him in the order visited; his reasons for requesting an extension and the period for which the extension is desired, and the address to which the permit is to be returned. If the extension application is granted, the permit will be noted to show the extension and returned to the applicant; if denied, the applicant shall be notified of the decision, and the permit returned to him if the remaining period of its validity permits its use for return to the United States. No appeal shall lie from a decision denying an application for extension of a reentry permit.

§ 223.3 Expired permits.

Upon the expiration of the period of validity of a reentry permit, the permit

shall be surrendered by the holder to the issuing office. If any such expired permit has not been surrendered to the Service, no subsequent reentry permit shall be issued to the same alien unless he shall first surrender the expired permit, or satisfactorily account for his failure so to do.

PART 264—REGISTRATION AND FINGERPRINTING OF ALIENS IN THE UNITED STATES

Paragraph (c) of § 264.1 is amended to read as follows:

§ 264.1 Registration and fingerprinting.

(c) *Replacement of registration.* Any alien whose evidence of registration has been lost, mutilated, or destroyed, shall immediately apply for new evidence thereof. Except for nonimmigrant crewmen who shall apply on Form I-174, and nonimmigrant agricultural workers, including aliens embraced within the provisions of § 214.2(k) of this chapter, who shall apply on Form I-102, such application shall be made on Form I-90. Any alien lawfully admitted for permanent residence whose name has been legally changed after registration may also apply on Form I-90. Evidence of registration surrendered by a lawful permanent resident alien on other than Form I-151 will be replaced with Form I-151 without fee or application. No appeal shall lie from the decision of the district director denying the application.

PART 282—FORMS FOR SALE TO PUBLIC

The heading to Part 282 is amended to read as set out above and Part 282 is amended to read as follows:

§ 282.1 Forms printed by the Public Printer.

The Public Printer is authorized to print for sale to the public by the Superintendent of Documents the following forms prescribed by Subchapter B of this chapter: G-28, I-20, I-21, I-94, I-95, I-129B, I-130, I-131, I-418.

(Sec. 103, 66 Stat. 173; 8 U.S.C. 1103. Interprets or applies sec. 282, 66 Stat. 231; 8 U.S.C. 1352)

PART 299—IMMIGRATION FORMS

The list of forms in § 299.1 *Prescribed forms* is amended by deleting "Form I-132 Permit to Reenter the United States."

PART 332a—OFFICIAL FORMS

The list of forms in § 332a.2 *Official forms prescribed for use of clerks of naturalization courts* is amended by deleting "Form N-50 Receipt for Duplicate Petitions."

PART 499—NATIONALITY FORMS

The list of forms in § 499.1 *Prescribed forms* is amended by deleting "Form N-50 Receipt for Duplicate Petitions." (Sec. 103, 66 Stat. 173; 8 U.S.C. 1103)

This order shall become effective on the date of its publication in the **FEDERAL REGISTER**. Compliance with the provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U.S.C. 1003), as to notice of proposed rule making and delayed effective date is unnecessary in this instance because the rules prescribed by the order relate to agency procedure.

Dated: November 16, 1961.

J. M. SWING,
Commissioner of
Immigration and Naturalization.

Title 10—ATOMIC ENERGY

Chapter I—Atomic Energy Commission

PART 40—LICENSING OF SOURCE MATERIAL

Miscellaneous Amendments

On pages 7143 and 7144 of the **FEDERAL REGISTER** of August 9, 1961, there was published a notice of proposed rule making to amend 10 CFR Part 40, "Licensing of Source Material", to: (1) Redesignate § 40.13(c)(5)(i) as § 40.13(c)(5) and amend it to extend the present exemption from licensing requirements for uranium aircraft counterweights installed in aircraft to include their storage, installation, removal, and incidental handling; (2) add a new § 40.13(c)(6), which would exempt from licensing requirements certain shipping containers made of or incorporating uranium as a shielding material, and (3) add a new § 40.23(c), which would generally license the export of uranium in the form of aircraft counterweights installed in aircraft.

Interested persons were given 30 days in which to submit written comments in connection with the proposed amendments. No objections to the proposed amendments have been received by the Commission.

In the interest of clarification the Commission considers that the less restrictive term "shipping container" should be used rather than "shipping cask" in the proposed § 40.13(c)(6), which establishes the exemption for shipping containers made of or incorporating uranium.

Inasmuch as these amendments grant relief from licensing requirements, the Commission has found that good cause exists why they should be made effective on publication in the **FEDERAL REGISTER**.

Pursuant to the Atomic Energy Act of 1954, as amended, and the Administrative Procedure Act of 1946, the proposed amendments of 10 CFR Part 40 are hereby adopted, subject to the change below, as a document subject to codification effective on publication in the **FEDERAL REGISTER**.

Subparagraph (6) of § 40.13(c) is amended by changing the words "shipping cask" to read "shipping container".

No. 225—5

Dated at Germantown, Md., this 9th day of November 1961.

For the Atomic Energy Commission.

WOODFORD B. MCCOOL,
Secretary.

a. Add the following new § 40.23(c):

(c) A general license designated AEC-GRO-SMC is hereby issued authorizing the export from the United States to any foreign country or destination, except countries or destinations listed in § 40.90, of uranium in the form of counterweights installed in aircraft, provided that such counterweights have been manufactured under a specific license issued by the Commission and have been impressed with a statement, clearly legible after plating, which states, "CAUTION-RADIOACTIVE MATERIAL-URANIUM."

b. Redesignate § 40.13(c)(5)(i) as § 40.13(c)(5) and amend it to read:

(5) Uranium contained in counterweights installed in aircraft and stored or handled in connection with installation or removal of such counterweights in or from aircraft; provided that such counterweights are manufactured in accordance with a specific license issued by the Commission and that each such counterweight has been impressed with a statement, clearly legible after plating, which states, "CAUTION-RADIOACTIVE MATERIAL-URANIUM," and that there is no removal or penetration of the plating on such counterweights.

c. Add the following new § 40.13(c)(6) to read:

(6) Uranium used as shielding constituting part of any shipping container which is conspicuously and legibly impressed with the legend "CAUTION-RADIOACTIVE SHIELDING-URANIUM" and which meets the specifications for containers for radioactive materials prescribed by § 78.250, Specification 55, Part 78 of the regulations of the Interstate Commerce Commission (49 CFR 78.250).

d. Redesignate § 40.13(c)(5)(ii) as § 40.13(c)(7) and revise it to read as follows:

(7) The exemptions in this paragraph (c) do not authorize the manufacture of any of the products described.

[Docket No. 8338 c.o.]

PART 13—PROHIBITED TRADE PRACTICES

Towers Marts, Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.155 *Prices*: § 13.155-40 *Exaggerated as regular and customary*; § 13.155-45 *Fictitious marking*.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Towers Marts, Inc., et al., Rockville, Conn., Docket 8338, Sept. 15, 1961]

In the Matter of Towers Marts, Inc., a Corporation, and Samuel J. Rosenstein, David Segal, Jack L. Graber, and David Portnoy, Individually and as Officers of Said Corporation

Consent order requiring a corporation with office in Danville, Conn., operating five wholly owned subsidiary retail stores which sold wearing apparel, hardware, and sports equipment, and licensing other concerns to operate departments in its stores to sell their own merchandise, to cease the practice of using fictitious comparative prices in newspaper advertisements, such as "Rotary Mower \$58.76 Compare at \$98." and "Fielders' Glove Compare at \$10 * * * 4.33", where the amounts set out under "compare at" were substantially in excess of usual retail prices in the area and afforded purchasers no savings, as implied.

The order to cease and desist is as follows:

It is ordered, That Towers Marts, Inc., a corporation, its officers and Samuel J. Rosenstein, David Segal, Jack L. Graber and David Portnoy, individually and as officers of the said corporation, and respondents' representatives, agents and employees, directly or through any corporate device, in connection with the advertising, offering for sale or sale of general merchandise or any product in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication:

(a) Through the use of the term "compare at" or any other term of the same import, or representing in any other manner, that any amount is the usual and customary price of merchandise in respondents' trade area when it is in excess of the price at which merchandise is usually and customarily sold at retail in the trade area where the representation is made;

(b) That purchasers of the advertised merchandise are afforded savings of the difference between the "compare at" prices or prices in the trade area or areas where the representations are made and the advertised prices of the respondents, unless the price at which the merchandise is advertised and offered for sale by the respondents constitutes a reduction from the price at which said merchandise is usually and customarily sold at retail in the trade area or areas where the representation is made;

2. Misrepresenting, in any manner, the amount of savings available to purchasers of respondents' merchandise or the amount by which the price of said merchandise has been reduced from the price at which it is usually and customarily sold at retail in the trade area or areas where the representation is made.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the above-named respondents shall, within sixty (60) days after service upon them of this order file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: September 15, 1961.

By the Commission.

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 230—GENERAL RULES AND REGULATIONS, SECURITIES ACT OF 1933

Delayed or Suspended Offerings

The Securities and Exchange Commission has adopted a rule under the Securities Act of 1933 which requires that if a bona fide effort is not made to proceed with the offering and sale of registered securities to the public within three business days after the registration statement becomes effective, or if the offering or sale is suspended within 15 days after the effective date, telegraphic or air mail notice of the delay or suspension must be filed with the Commission. A similar rule has been added to Regulation A with respect to offerings under that regulation.

It has come to the attention of the Commission that certain offerings have been held off the market after the effective date of the registration statement, or after the date on which the offering could have commenced under Regulation A, for the purpose of avoiding the usual market surveillance or of increasing the demand for, or the price of, the securities to be offered. The securities are then subsequently offered at an increase in price over the price stated in the prospectus or offering circular.

If at the time a registration statement becomes effective, or at the time an offering under Regulation A may be commenced, it is intended that the offering will not be commenced immediately or will be suspended, the prospectus or offering circular should disclose such intention and the reasons therefor. The new rules are intended to apply to situations where an offering is delayed or suspended and information with respect to such delay or suspension and the reasons therefor are not contained in the prospectus or offering circular.

I. A new § 230.263 (Rule 263) is added to §§ 230.251 to 230.262 (Regulation A under the Securities Act of 1933), with

reference to offerings under that regulation, to read as follows:

§ 230.263 Notice of delayed or suspended offering and sale.

If within three business days after the issuer has received notice that the Commission has no further comments with respect to the notification a bona fide effort is not made to proceed with the offering and sale of the securities proposed to be offered under this regulation, or if the offering or sale of such securities is suspended by the issuer or any underwriter within 15 days after the issuer has received such notice, a notice of the delay or suspension, stating the reasons therefor, shall be filed by the issuer or underwriter with the Regional Office of the Commission with which the notification was filed, unless such information is set forth in the offering circular. Such notice shall be sent promptly by telegraph or air mail and if sent by telegraph shall be confirmed in writing within a reasonable time by the filing of a signed copy of the notice.

II. A new § 230.462 (Rule 462), with reference to registered securities, is added to the rules under the Securities Act of 1933 to read as follows:

§ 230.462 Notice of delayed or suspended offering and sale of securities.

If within three business days after the effective date of the registration statement a bona fide effort is not made to proceed with the offering and sale of the registered securities to the public in accordance with the plan of distribution described in the registration statement, or if the offering or sale of such securities is suspended by the issuer or a principal underwriter within 15 days after the effective date, a notice to that effect, stating the reasons for the delay or suspension shall be filed with the Commission by the issuer or principal underwriter, unless such information is set forth in the prospectus. Such notice shall be sent promptly by telegraph or air mail and if sent by telegraph shall be confirmed in writing within reasonable time by the filing of a signed copy of the notice.

(Secs. 3(b), 6, 7, 10, and 19(a), 48 Stat. 75 et seq., as amended, 15 U.S.C. 77c, 77f, 77g, 77j, and 77s)

The Commission finds that it is necessary and appropriate in the public interest and for the protection of investors that the above rules be adopted without delay and that notice and procedure pursuant to the Administrative Procedure Act are, under the circumstances, unnecessary. Accordingly, the above rules, which are adopted pursuant to the Securities Act of 1933, particularly sections 3(b), 6, 7, 10 and 19(a) thereof, shall be effective with respect to registration statements which become effective on or after November 27, 1961.

By the Commission.

Secretary.

Title 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

SUBCHAPTER C—PROBATE

PART 17—ACTION ON WILLS OF OSAGE INDIANS

Appeals

On page 8641 of the FEDERAL REGISTER of September 15, 1961, there was published a notice of intention to amend Part 17, Title 25, of the Code of Federal Regulations, concerning actions on wills of Osage Indians.

The approval or disapproval of wills of deceased Osage Indians by the Superintendent, following notice and hearing, has substantially the same type of technical legal connotations as does that of the action of the Examiners of Inheritance in Indian probates under Part 15 of this chapter. Appeals from the decisions of the Examiners are taken under 25 CFR 15.19 direct to the Secretary. It is the purpose of this amendment to provide for a direct appeal to the Secretary in Osage will cases.

Interested persons were given thirty days within which to submit written comments, suggestions, or objections concerning the proposed amendment. No objections or comments were received, and the regulation is hereby adopted as set forth below and will become effective at the beginning of the 30th calendar day following the date of this publication in the FEDERAL REGISTER.

KENNETH HOLUM,
Acting Secretary of the Interior.

NOVEMBER 15, 1961.

Section 17.14 is amended to read as follows:

§ 17.14 Appeals.

(a) Notwithstanding the provisions in Part 2 of this chapter concerning appeals generally from administrative actions, any appeal from the action of the superintendent of approving or disapproving a will shall be taken to the Secretary. Upon the superintendent's final action of approval or disapproval of a will, he shall immediately notify by mail all attorneys appearing in the case, together with interested parties who are not represented by attorneys, of his decision and of their right to file an appeal.

(b) Any party desiring to appeal from the action of the superintendent shall, within 15 days after the date of the mailing of notice of the decision file with the superintendent a notice in writing of his intention to appeal to the Secretary, and shall, within 30 days after the mailing date of such notice by the superintendent, perfect his appeal to the Secretary by service of the appeal upon the superintendent, who will transmit the entire record to the Secretary. If no notice of intention to appeal is given within 15 days, the superintendent's decision will be final.

(c) Upon the filing of notice with the superintendent of intention to appeal or the perfecting of an appeal by service upon the superintendent, at the same

time similar notice and service shall be effected by the party taking an appeal upon opposing counsel or litigants, and a statement included in the appeal that this has been done. A party taking an appeal may, within the same 30-day period allowed for perfecting an appeal, file a brief or other written statement of his contentions, showing also service of that brief upon opposing counsel or litigants. Opposing counsel or litigants shall have 30 days from the date of the service of appellant's brief upon them in which to file an answer brief, copies of which also shall be served upon the appellant or opposing counsel and litigants. Except by special permission, no other briefs will be allowed on appeal.

561.29 Periods of enlistment.
561.30 Qualifications for USAR enlistment.
561.31 Age requirements.
561.32 Citizenship.

Sec.
561.33 Residence.
561.34 Dependents.
561.35 Members of Reserve components of other armed forces.
561.36 Ineligibility.

AUTHORITY: §§ 561.29 to 561.36 issued under sec. 280, 70A Stat. 14; 10 U.S.C. 280.

SOURCE: AR 140-111, Oct. 24, 1961.

§ 561.29 Periods of enlistment.

Enlistments as reserves of the Army for service in the Army Reserve will be for periods as prescribed in this section.

(a) *Three-year period.* Enlistment for 3 years is authorized for:

(1) Women except for applicants for the WAC College Junior Program who have not reached their 21st birthday.

(2) Men, provided:

(i) Applicant is not subject to induction into active military service.

(ii) Applicant has a remaining service obligation of 3 years or less.

(iii) Applicant has prior service as provided in paragraph (e) of this section.

(b) *Six-year period—2 year active duty program.* Applicable to male applicants. Individuals ordered to report for induction into the Armed Forces may not be enlisted under this paragraph.

(c) *Six-year period—6 months' active duty for training program.* Applicable to male applicants without prior military service.

(d) *Eight-year period.* Until 1 August 1963 male applicants may be enlisted for 8 years as follows:

(1) *For 6 months' ACDUTRA.* High school students may not be enlisted more than 1 year prior to expected date of graduation.

(2) *For 3 months' ACDUTRA.* When selected as eligible for enlistment as critically skilled personnel by Selective Service authorities.

(e) *Period to cover remaining obligation.* Members of a Reserve component of another armed force, granted conditional release to enlist in the Army Reserve, will be enlisted for the number of whole years to cover the remainder of his existing service obligation. In no case will this enlistment be for less than 3 years. The applicant's original service obligation carries over to this enlistment.

§ 561.30 Qualifications for USAR enlistment.

Eligibility requirements and procedures for enlistment and reenlistment are the same as those prescribed in Part 571 of this subchapter for the Regular Army except as outlined in §§ 561.31-561.36.

§ 561.31 Age requirements.

(a) *Personnel—(1) Initial enlistee:*

	Age (years)
For 6 years with 2 years' AD	17 to 26.
For 6 years with a 6 months' ACDUTRA	18½ to 26.
For 8 years with 6 months ACDUTRA	17 to 18½.
For 8 years with 3 months' ACDUTRA (critical skill)	18½ to 26.
For 3 years with 6 months' ACDUTRA (for male enlistees)	26 to 35.

(2) *Prior service enlistee.*

Applicants with honorable service in any of the armed forces..... 17 to 35.

Age (years)

Applicants last honorably discharged from any component of the Army or as Reserve officers of the Army except as provided in paragraph (b) of this section..... 17 to 55.

Applicants with needed skills. Exceptions to prior service limitations may be made when authorized by the area commander. This authority may not be delegated below corps commander..... 17 to 45.

(b) *Exception to maximum age.* As an exception to age requirements above a prior service applicant 55 years of age may be enlisted only for his own vacancy, on the day following discharge if he will be able to complete 20 years qualifying service for retirement purposes prior to attaining age 60. Officers removed from an active status by reason of having attained maximum age or service are not eligible for enlistment under this authority.

(c) *Army Reserve Band.* Applicants for service in the Army Reserve Band must meet requirements for members of the Regular Army Band.

(d) *Needed skills.* Applicants with needed skills will be reenlisted without special authorization if reenlistment is accomplished within 90 days after discharge from prior enlistment.

§ 561.32 Citizenship.

Applicants must be citizens of the United States, or have filed legal declaration of intention to become citizens of the United States or a possession thereof, or must have had prior service in the Armed Forces of the United States.

§ 561.33 Residence.

Each applicant must be a resident of and furnish a permanent home address within the United States. Enlistments will be restricted to those applicants living and working within reasonable distances from the unit for which enlisted in order to satisfactorily participate in scheduled unit training.

§ 561.34 Dependents.

(a) Except as authorized for especially skilled applicants and other than those reenlisting on the day following honorable discharge, male applicants with dependents are authorized to enlist, if otherwise eligible, subject to the conditions prescribed below:

Number of dependents	Grade authorized	Minimum requirements
Not more than 1.	E-1.....	A percentile score of 50 or higher on Armed Forces Qualification Test for nonprior servicemen, except the selective service registrant under 26, classified 1A, may be enlisted if he attains a percentile score of 31 or higher on Armed Forces Qualification Test.
Not more than 3.	E-1 through E-3.	Prior servicemen—a percentile score of 50 or higher on Armed Forces Qualification Test.
Not more than 3.	E-4.....	Prior servicemen entitled to enlist or reenlist in grade E-4 percentile score of 31 or higher.
4 or more.	E-4 or higher..	May enlist or reenlist only if entitled to enlist in grade E-4 or higher.

(b) Area commanders may grant waivers in exceptionally meritorious cases of persons with 6 or more years of honorable service when applicant does not meet all the above requirements. This authority may not be delegated below corps commanders.

(c) Prior servicewomen with dependents reenlisting after 180 days from honorable discharge may enlist in grades E-2 or E-3.

§ 561.35 Members of Reserve components of other armed forces.

Members of Reserve components of other armed forces, having a service obligation, including those enrolled in or applying for enrollment in Advanced Course, Senior Division, ROTC, may be enlisted provided:

(a) They meet current criteria for prior service applicants.

(b) Applications are submitted through, and approved by, officials of the losing armed force authorized to accept resignations or otherwise effect separations; or

(c) They submit a certificate, signed by an official indicated in paragraph (b) of this section, that the applicant will be released from his current status if enlisted as a Reserve of the Army.

§ 561.36 Ineligibility.

(a) *Classes ineligible to enlist or reenlist unless waiver is granted.* Those individuals described in § 571.2(e) of this subchapter as ineligible unless waiver is granted may not be enlisted or reenlisted

as Reserves of the Army unless waiver is granted.

(b) *Classes ineligible for enlistment or reenlistment—no waivers granted.* (1) Those described in § 571.2(f) of this subchapter as ineligible.

(2) Critical air transport personnel having been denied Ready Reserve assignment by the Air Force.

(3) Persons with military status except as shown in § 561.35.

(4) Officers removed from an active status by reason of having attained maximum age or service.

Notice of Referendum

Notice is hereby given that on December 12, 1961, a referendum will be held of farmers engaged in the production in 1961 of flue-cured tobacco pursuant to the provisions of the Agricultural Adjustment Act of 1938, as amended, 1281 et seq. Notice that consideration would be given to establishing a date for holding the referendum was given in 26 F.R. 9651. The purpose of the referendum is to determine whether the farmers voting favor national marketing quotas for each of the 1962-63, 1963-64, and 1964-65 marketing years for such kind of tobacco. The referendum will be conducted in accordance with the provisions of the Act and the Regulations Governing the Holding of Referenda on Marketing Quotas (23 F.R. 3432, 7285).

In order that arrangements for holding the referendum may be made in an orderly manner and as much advance notice as possible be given of the date of the referendum, it is essential that this be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the 30-day

effective date requirement of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest and this notice shall be effective upon filing of this document with the Director, Office of the Federal Register.

ATOMIC ENERGY COMMISSION

[10 CFR Part 140]

FINANCIAL PROTECTION REQUIREMENTS AND INDEMNITY AGREEMENTS

Notice of Proposed Rule Making

On April 22, 1961, the Commission published in the FEDERAL REGISTER the form of indemnity agreements which it would execute with licensees furnishing insurance policies as proof of financial protection and the form of indemnity agreement which it would enter into with licensees furnishing proof of financial protection in the form of licensee's resources. In the statement of considerations, the Commission stated that it had recommended to Congress that the indemnity provisions (Section 170) of the Atomic Energy Act of 1954, as amended, be amended to eliminate coverage of liability for damage to so-called "on-site" property, and that, if such legislation were enacted, corresponding changes would be made in the forms of indemnity agreements. Public Law 87-206, effective September 6, 1961, contains a provision amending the definition of "public liability" in section 11u of the Atomic Energy Act of 1954, as amended. Therefore, it is necessary to make corresponding changes in the forms of indemnity agreements to be entered into with licensees furnishing proof of financial protection. Opportunity is also taken at this time to correct two typographical or editorial errors.

Principal features of the changes in the form of indemnity agreements contained in § 140.76 Appendix "B", are as follows:

1. Amendment of paragraph 6 of Article I (definition of "public liability") to delete indemnity coverage for on-site property used in connection with the licensee's possession, use, or transfer of the radioactive material.

2. Amendment of paragraph 2 of Article II by deleting the "(a)" after the 2 and by deleting the (b) paragraph in its entirety. Paragraph 2(b) required the licensee to indemnify and hold harmless

all persons indemnified from public liability for damage to on-site property. Since there is no longer any public liability for on-site property, this requirement is deleted.

3. Amendment of lines 1 and 2 of paragraph 3 of Article II by deletion of the phrase "under paragraph 2(b) of this Article, and". The deletion of paragraph 2(b) requires that this reference also be deleted.

4. Amendment of lines 9 through 11 of the second paragraph of paragraph 6(c) of Article II by the deletion of the phrase "aggregate of the obligations of the licensee under paragraph 2(b) of this Article II, and". The deletion of 2(b) also requires that this reference to paragraph 2(b) be deleted.

5. Amendment of the fifth line of paragraph 4(a) of Article III by deletion of the comma after the word "property". The insertion of this comma was inadvertent.

The principal features of the changes in the form of indemnity agreements contained in § 140.77, *Appendix C*, are as follows:

6. Amendment of paragraph 6, Article I (definition of "public liability") to delete indemnity coverage for on-site property used in connection with the licensee's possession, use, or transfer of the radioactive material.

7. Amendment of paragraph 4(a) of Article III by adding between the comma and the word "incident" in the fifth line of the following parenthetical phrase: "(other than such property described in the proviso to paragraph 2 of this article)". This amendment conforms this paragraph with the corresponding paragraphs in the other form indemnity agreements. The omission was inadvertent.

Pending adoption of the following proposed amendments, the Commission is forwarding to licensees required to furnish financial protection the applicable form indemnity agreement published in the *FEDERAL REGISTER* on April 22, 1961, as amended by a publication in the *FEDERAL REGISTER* on August 19, 1961. By letter accompanying such indemnity agreement, however, the Commission is informing the licensee of the amendment of the definition of "public liability" by Public Law 87-206 and that an appropriate amendment to the indemnity agreement will be sent to the licensee to be effective September 6, 1961, the effective date of Public Law 87-206.

Notice is hereby given that the Commission is considering adoption of the following amendments. All interested parties who desire to submit written comments and suggestions for consideration in connection with the proposed amendment should send them to the Secretary, U.S. Atomic Energy Commission, Washington 25, D.C., within twenty days after publication of this notice in the *FEDERAL REGISTER*. Comments received after that period will be considered if it is practicable to do so, but assurance of consideration cannot be given except as to comments filed within the period specified.

1. Amend § 140.76, *Appendix B*, Article I, paragraph 6, to read as follows:

6. "Public liability" means any legal liability arising out of or resulting from a nuclear incident, except (1) claims under state or Federal Workmen's Compensation Acts of employees of persons indemnified who are employed (a) at the location or, if the nuclear incident occurs in the course of transportation of the radioactive material, on the transporting vehicle, and (b) in connection with the licensee's possession, use, or transfer of the radioactive material; (2) claims arising out of an act of war; and (3) claims for loss of, or damage to, or loss of use of (a) property which is located at the location and used in connection with the licensee's possession, use, or transfer of the radioactive material, and (b), if the nuclear incident occurs in the course of transportation of the radioactive material, the transporting vehicle and containers used in such transportation and the radioactive material.

2. Amend § 140.76 *Appendix B*, Article II, paragraph 2, by deleting the letter "(a)" after the Number "2" and deleting "2(b)" in its entirety so that paragraph 2 reads:

2. In the event of any payment by the insurer or insurers under a policy or policies specified in Item 5 of the Attachment hereto which reduces the aggregate limit of such policy or policies below the amount of financial protection, the licensee will promptly apply to his insurers for reinstatement of the amount specified in Item 2a of the Attachment (without reference to paragraph b of Item 2) and will make all reasonable efforts to obtain such reinstatement. In the event that the licensee has not obtained reinstatement of such amount within ninety days after the date of such reduction, and in the absence of good cause shown to the contrary, the Commission may issue an order requiring the licensee to furnish financial protection for such amount in another form.

3. Amend § 140.76 *Appendix B*, Article II, paragraph 3, to read as follows:

3. Any obligations of the licensee under subsection 53e(8) of the Act to indemnify the United States and the Commission from public liability, together with any public liability satisfied by the insurers under the policy or policies designated in the Attachment hereto, shall not in the aggregate exceed the amount of financial protection with respect to any nuclear incident, including the reasonable costs of investigating and settling claims and defending suits for damage.

4. Amend § 140.76 *Appendix B*, Article II, second paragraph of paragraph 6(c) to read as follows:

As used in this paragraph 6, Article II, and subparagraph 4(b), Article III, "other applicable agreements" means each other agreement entered into by the Commission pursuant to subsection 170c of the Act in which agreement the nuclear incident is defined as a "common occurrence". As used in this paragraph 6, Article II, "the obligations of the licensee" means the obligations of the licensee under subsection 53e(8) of the Act to indemnify the United States and the Commission from public liability, together with any public liability satisfied by the insurers under the policy or policies designated in the Attachment, and the reasonable costs of investigating and settling claims and defending suits for damage.

5. Amend § 140.76, *Appendix B*, Article III, paragraph 4(a), to read as follows:

4(a) The obligations of the Commission under this Article shall apply only with respect to such public liability, such damage to property of persons legally liable for the nuclear incident (other than such property

described in the proviso to paragraph 2 of this article), and such reasonable costs described in paragraph 3 of this article as in the aggregate exceed the amount of financial protection.

6. Amend § 140.77 *Appendix C*, Article I, paragraph 6, to read as follows:

6. "Public liability" means any legal liability arising out of or resulting from a nuclear incident, except (1) claims under state or Federal Workmen's Compensation Acts of employees of persons indemnified who are employed (a) at the location or, if the nuclear incident occurs in the course of transportation of the radioactive material, on the transporting vehicle, and (b) in connection with the licensee's possession, use, or transfer of the radioactive material; (2) claims arising out of an act of war; and (3) claims for loss of, or damage to, or loss of use of (a) property which is located at the location and used in connection with the licensee's possession, use, or transfer of the radioactive material, and (b), if the nuclear incident occurs in the course of transportation of the radioactive material, the transporting vehicle and containers used in such transportation and the radioactive material.

7. Amend § 140.77 *Appendix C*, Article III, paragraph 4(a), to read as follows:

4(a) The obligations of the Commission under this article shall apply only with respect to such public liability, such damage to property of persons legally liable for the nuclear incident (other than such property described in the proviso to paragraph 2 of this article), and such reasonable costs described in paragraph 3 of this article as in the aggregate exceed the amount of financial protection.

Dated at Germantown, Md., this 15th day of November 1961.

FEDERAL AVIATION AGENCY

[14 CFR Part 600]

[Airspace Docket No. 61-FW-95]

FEDERAL AIRWAY

Proposed Alteration

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to § 600.6035 of the regulations of the Administrator, the substance of which is stated below.

Low altitude VOR Federal airway No. 35 west alternate is designated, in part, from the Asheville, N.C., VOR via the Asheville VOR 329° and the Tri-City, Tenn., VOR 204° True radials; to the Tri-City VOR. The Federal Aviation Agency has under consideration the realignment of this segment of Victor 35 west alternate from the Asheville VOR via the intersection of the Asheville VOR 300° and the Tri-City VOR 203° True radials; to the Tri-City VOR.

The proposed realignment of Victor 35 west alternate would provide a more direct route between the new Asheville

Airport and Tri-City for aircraft utilizing the Asheville ILS in lieu of the VOR for instrument approach procedures at the Asheville Airport. The control areas associated with this airway are so designated that they would automatically conform to the altered airway. The vertical extent of these control areas would remain as designated pending review of the adjacent airspace. Separate actions will be initiated to implement on an area basis Amendment 60-21 to Part 60 of the Civil Air Regulations.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Assistant Administrator, Southwest Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, P.O. Box 1689, Fort Worth 1, Tex. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room C-226, 1711 New York Avenue NW, Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C. on November 15, 1961.

CHARLES W. CARMODY,
Chief, Airspace Utilization Division.

CONTROLLED AIRSPACE

Proposed Alteration of Control Area Extensions and Designation of Transition Areas

Correction

In F.R. Doc. 61-10954, appearing at page 10779 of the issue for Friday, November 17, 1961, correction is made to change the language in the paragraph designated "5," and to add paragraphs designated "6," to "9," as set forth below:

5. The Woodville, La., transition area would be designated to extend upward from 1200 feet above the surface within 12 miles northwest and 8 miles southeast of the McComb, Miss., VOR 251° True

radial extending from 48 miles to 80 miles southwest of the McComb VOR. This transition area would provide protection for aircraft in a holding pattern at the Woodville Intersection (intersection of the McComb VOR 251° and the Baton Rouge, La., VOR 357° True radials).

6. The Yarbo, Ala., transition area would be designated to extend upward from 1200 feet above the surface within a 25-mile radius of the Yarbo Intersection (intersection of the Evergreen, Ala., VOR 268° and the Mobile, Ala., VOR 005° True radials). This transition area would provide protection for aircraft in holding patterns at Yarbo Intersection.

7. The Hattiesburg, Miss., transition area would be designated to extend upward from 1200 feet above the surface within a 20-mile radius of the Hattiesburg VOR, excluding the portion which would coincide with the Camp Shelby, Miss., Restricted Area (R-4401). This transition area would provide protection for aircraft in holding patterns at the Hattiesburg VOR.

8. The Evergreen, Ala., transition area would be designated to extend upward from 1200 feet above the surface within a 20-mile radius of the Evergreen VOR. This transition area would provide protection for aircraft in holding patterns at the Evergreen VOR.

9. The Andalusia, Ala., transition area would be designated to extend upward from 1200 feet above the surface within 12 miles west and 8 miles east of the Crestview, Fla., VOR 013° True radial extending from 22 miles north to 10 miles south of the relocated Andalusia Intersection (intersection of the Crestview 013° and the Evergreen, Ala., VOR 114° True radials). This transition area would provide protection for aircraft in holding patterns at the Andalusia Intersection.

[Docket No. 12946; FCC 61-1372]

TELEVISION BROADCAST STATIONS; SAN FRANCISCO AND SACRAMENTO, CALIF., AND RENO, NEV.

Proposed Table of Assignments

1. This rule making proceeding was instituted to consider conflicting proposals for new VHF television assignments at San Francisco and Sacramento, California, and at Reno, Nevada.¹ On April 20, 1960, we disposed of the Reno proposals, since it was possible to do so without prejudice to any decision we might reach on the proposal for a new VHF assignment in northern California.²

¹ Notice of proposed rule making (FCC 59-724), adopted July 15, 1959, and released July 17, 1959, in Docket No. 12946.

² Report and Order (FCC 60-419), adopted April 20, 1960, and released April 22, 1960, in Docket No. 12946. Action was taken therein to assign Channels 2 and 5 to Reno, with Channel 5 reserved for noncommercial educational use.

We were not ready at that time to act on the conflicting California proposals and deferred their disposition. We have now completed our evaluation of them in light of the comments received.

RESUME OF PROPOSALS FOR DISPOSITION³

2. *Sacramento proposal.* The proposal of Irving J. Schwarz, William Stephen George and John Matranga, d/b as Capitol Radio Enterprises, former permittee of Station KGMS-TV on UHF Channel 46 at Sacramento (never built), to assign Channel 12 to Sacramento by substituting Channel 11 for Channel 12 at Chico, California (KHSL-TV), as follows:

City	Channel No.	
	Present	Proposed
Sacramento, Calif.	3, *6, 10, 40- 40+	3, *6, 10, 12- 40-
Chico, Calif.	12-	11-

3. *San Francisco proposal.* Proposal of S. H. Patterson, permittee of Station KSAN-TV on UHF Channel 32 at San Francisco (on the air from March of 1954 to June of 1958) to assign VHF Channel 11 to San Francisco by substituting Channel 12 for Channel 11 at San Jose, California (KNTV), as follows:⁴

City	Channel No.	
	Present	Proposed
San Francisco-Oakland, Calif.	2+, 4-, 5+, 7-, *9+, 20-, 26-, 32+, 38-, 44-	2+, 4-, 5+, 7-, *9+, 11+, 20-, 26-, 32+, 38, 44-
San Jose, Calif.	11+, 48, *54, 60	12+, 48, *54, 60

4. *Alternative San Francisco proposal.* In reply comments, Patterson submitted an alternative proposal for adding a VHF channel at San Francisco which, unlike its above Channel 11 proposal, was not contingent upon the deletion

³ William H. Hagerty of San Mateo, California, submitted a channel reassignment proposal for northern California, including making Sacramento all-UHF, and suggestions for new allocation policies which we believe should properly be considered in connection with our long-range allocation studies for improvement of the allocation structure and policies and not in a rule making proceeding such as this which is limited in scope and purpose.

⁴ When rule making was instituted on this proposal, it would also have required the deletion of Channel 12 from Fresno, California (KFRE-TV), which we were then considering in Docket No. 11759. Otherwise, minimum co-channel separation requirements would have precluded the assignment of Channel 12 to San Jose. Channel 12 was deleted from Fresno by our action of July 17, 1960, in the Fresno proceeding. In March of this year we reassigned Channel 12 to Santa Maria, California, in the Bakersfield rule making proceeding (Docket No. 13608). Santa Maria is only about 168 miles from the site of Station KNTV, which is about 15 miles south of San Jose. Channel 12 could not therefore be used at San Jose at KNTV's present site unless Channel 12 were employed at a site about 22 miles south of Santa Maria.

of Channel 12 from Fresno. This proposal would assign Channel 12 to San Francisco by substituting Channel 11 for Channel 12 at Chico (KHSL-TV). We provided time for parties to comment on this proposal also.⁵

5. *Santa Rosa, California, proposal.* Proposal of Television Diablo, Inc., licensee of Station KQVR, Channel 13, Stockton, California,⁶ to assign Channel 12 to Santa Rosa by changing Channel 12 at Chico (KHSL-TV) to Channel 11, as follows:

City	Channel No.	
	Present	Proposed
Santa Rosa, Calif.....	50	12—, 50
Chico, Calif.....	12—	11—

6. *Alternative Santa Rosa proposal.* Westinghouse Broadcasting Company, Inc. (Cal.), licensee of Station KPIX, Channel 5, San Francisco, proposes that Channel 12 be assigned to Santa Rosa by changing Channel 12 at Chico (KHSL-TV) to Channel 8 and by changing Channel 8 at Reno (KOLO-TV) to Channel 12 or other available VHF assignment.

POSITION TAKEN BY PARTIES ON PROPOSALS

7. *Sacramento proposal.* The proposal to assign Channel 12 to Sacramento was supported by Capitol Radio Enterprises, its proponent, and by Capitol Television Company and Capitol Television, Inc. (former and present permittee, respectively, of Station KVUE, Channel 40, Sacramento) in their comments. Westinghouse Broadcasting Company also favored the proposal in its original comments; in subsequent comments it proposed that Channel 12 be assigned to Santa Rosa. A number of letters endorsing the proposal were also received from public officials, organizations and individuals in the Sacramento area.

8. Opposition to the proposal was expressed in comments filed by Golden Empire Broadcasting Company KHSL-TV, Channel 12, Chico), Television Diablo,

⁵ Order (FCC 59-1112), released November 3, 1959. Parties were given to November 8, 1959 to file comments on this alternative proposal. Requests for late acceptance of accompanying comments were received on November 13, 1959, from Sherrill C. Corwin (holder of a CP for Station KEZE-TV, on Channel 20, San Francisco) and on November 16, 1959, from S. H. Patterson. Capitol Radio Enterprises opposed the grant of the Patterson request. We have decided to grant these requests. Reasonable explanations have been furnished by the parties for not meeting the deadline set for comments. In light of the brief time provided for commenting on this alternative proposal, the time that this proceeding has been pending, and the absence of any new matters which we consider of decisional significance in the proffered late comments, we believe it fair and not prejudicial to other parties to accept and consider them.

⁶ On August 8, 1960, the license of Television Diablo for Station KQVR was modified to change the name of the corporation to Metropolitan Broadcasting Corporation of California.

Inc. (KQVR, Channel 13, Stockton), Great Western Broadcasting Corporation (KXTV, Channel 10, Sacramento), KCRA, Inc. (KCRA-TV, Channel 3, Sacramento), and by S. H. Patterson.

9. *San Francisco proposals.* S. H. Patterson and Great Western Broadcasting Corporation supported the alternative proposals for the assignment of either Channels 11 or 12 to San Francisco. Sherrill C. Corwin urged the adoption of the Channel 12 proposal.

10. The proposal to assign Channel 11 to San Francisco was opposed by Standard Radio and Television Company, (KNTV, Channel 12, San Jose). The alternative proposal to assign Channel 12 directly to San Francisco was opposed by Golden Empire Broadcasting. Capitol Radio, Capital Television and Westinghouse opposed both alternative proposals.

11. *Santa Rosa proposals.* Television Diablo and Westinghouse urged the adoption of their respective counterproposals for assignment of Channel 12 to Santa Rosa. Patterson opposed both proposals.

EXISTING TELEVISION SERVICE IN CITIES AND AREAS INVOLVED

12. *Sacramento.* Four VHF stations serve the Sacramento area. Three are commercial stations with network affiliations (KCRA-TV on Channel 3 and KXTV on Channel 10 at Sacramento, and KQVR on Channel 13 at Stockton). The fourth station (KVUE on Channel 6 at Sacramento) provides a noncommercial educational service to the area. The UHF assignments—Channels 40 and 46—are not now in use. Capitol Television Company, Inc., operated Station KVUE on Channel 40 from October 23, 1959, to March 19, 1960. Station KCCC-TV was also on the air on Channel 40 from September of 1953 to May of 1957. The Channel 46 assignment has never been activated, although Capitol Radio Enterprises at one time—from March of 1956 to July 1958—held a construction permit for a station on the channel. A UHF station (KTVU), operated on Channel 36 at Stockton from December 15, 1953 through April 1955.

13. Some parties contend that Sacramento cannot be considered to have three VHF commercial services since Station KQVR operates on a channel which is assigned to Stockton. We cannot agree. Station KQVR operates from a transmitter site approximately equidistant to both Stockton and Sacramento. It provides a principal city signal to both cities, maintains studios in both cities, and serves as the ABC television outlet in the Sacramento-Stockton area. The Commission, national advertisers, the networks, and nationwide rating and coverage survey organizations treat the two cities as a combined television market. The 1960 Television Coverage Study of the American Research Bureau, Inc., indicates that the homes in Sacramento County able to receive Station KQVR and the Sacramento stations are comparable in number and that the three stations are competitive in terms of program popularity. Last year we authorized Station KQVR to

identify itself as a Stockton-Sacramento station. It is a reasonable conclusion, we believe, that for all practical purposes, Sacramento does in fact enjoy three comparable and competitive commercial services at this time, albeit one service is provided by a station operating on a channel assigned to Stockton. Moreover, last July we authorized the Stockton and Sacramento commercial stations to move to a common tower site, approximately 22 miles south of Sacramento and 20 miles north of Stockton near Walnut Grove, California. They are now in the process of moving. When this triple move is accomplished, all three stations will be in an equal and better position for covering and serving the Sacramento-Stockton television market.

14. *San Francisco.* Five VHF stations serve the San Francisco area. Three of these stations (KRON-TV on Channel 4, KPIX on Channel 5 and KGO-TV on Channel 7 at San Francisco) are affiliated with national television networks and provide a choice of network programming to the area. A fourth commercial station (KTVU on Channel 2 at Oakland) furnishes an independent local service to the area. A fifth station (KQED on Channel *9) provides the area with an educational service. Additional VHF service is received in the southern portion of the San Francisco market from Station KNTV (Channel 11) at San Jose. There are no UHF stations operating in the area at this time. S. H. Patterson operated Station KSNV-TV on Channel 32 from March 9, 1954, to June 21, 1958. The other four UHF assignments to San Francisco-Oakland have never been activated, although Sherrill C. Corwin's construction permit for a UHF station on Channel 20, granted in 1957, is still outstanding.

15. There is some argument in the record on whether Station KTVU at Oakland, which operates from a site on San Bruno Mountain, as does Station KRON-TV at San Francisco, and provides a principal city signal to both San Francisco and Oakland, constitutes a fourth local commercial VHF service for San Francisco. In our judgment, it does. On the other hand, the claim that Station KNTV at San Jose provides San Francisco with a fifth comparable and competitive commercial television service is not convincing. The station's transmitter is located about 15 miles south of San Jose and 55 miles south of San Francisco. Because of the orientation of the station's directional antenna, its Grade A contour falls south of San Francisco and Oakland. The 1960 ARB Study indicates that the television homes in San Francisco and Alameda counties, where San Francisco and Oakland are situated, rely mainly upon the four local stations in these cities for commercial television service and that those which receive or regularly view the San Jose station are negligible.

16. *Santa Rosa.* This city, the county seat of Sonoma County, is about 50 miles north of San Francisco and 60 miles west of Sacramento. It has no local television station. Its only UHF assignment—Channel 50—has never been utilized. The area is, however, within the Grade

B contours of the four commercial San Francisco-Oakland stations and receives service from them. Television Diablo asserted that the service received is undoubtedly less than that which might be expected from the predicted contours of these stations because of terrain. It would appear, however, from ARB and other coverage studies that the San Francisco commercial stations have substantial coverage and circulation in Sonoma County. The ARB 1960 study indicates that, of an estimated 48,400 homes in Sonoma County, 40,600 homes (84 percent of all homes) had television receivers. (The ARB revised January 1, 1961, estimate of television households in Sonoma County indicates that the percentage is more nearly about 87 percent of all homes). The 1960 ARB Study indicates that an estimated 94 percent to 99 percent of these television homes could receive three San Francisco commercial stations, and an estimated 82 percent could receive the other station. The estimate of television homes viewing two of the San Francisco stations at least once a week ranged from 94 percent to 96 percent of all television households, and, for the other two stations, from 75 percent to 85 percent of all television households. An estimated 19 percent of the television homes in Sonoma County could also receive the Sacramento Channel 3 station. When the three Sacramento-Stockton commercial stations begin operating from their authorized Walnut Grove site, their predicted Grade B contours will for the first time extend to and beyond Santa Rosa. This can be expected to improve conditions for their reception in the Santa Rosa area.

EXPOSITION OF THE SACRAMENTO AND SAN FRANCISCO PROPOSALS

17. We next consider the possibilities offered by the proposals before us for Sacramento and San Francisco.

18. The proposals are mutually exclusive because of co-channel minimum mileage separation requirements. The assignment of Channel 12 to either San Francisco or Sacramento would also require Station KHSL-TV at Chico to change its operating frequency from Channel 12 to Channel 11 since Chico is less than 190 miles from both cities. Its licensee, Golden Empire Broadcasting Company, opposes both proposals and advises that it will not consent to the modification of its license to effectuate either proposal. The alternative plan of assigning Channel 11 to San Francisco by shifting Station KNTV at San Jose from Channel 11 to Channel 12 is opposed by the licensee, Standard Radio and Television Company.

19. *Sacramento.* By substituting Channel 11 for Channel 12 at Chico (KHSL-TV), it would be possible to assign Channel 12 to Sacramento and meet minimum co-channel and adjacent channel mileage separation requirements. However, with Station KOVR on adjacent Channel 13, operating from its authorized new transmitter site near Walnut Grove, about 22 miles south of Sacramento, a Channel 12 operation would have to locate its transmitter site

at least 38 miles to the north of Sacramento to meet the minimum 60-mile separation required from Station KOVR.

20. Under these circumstances there would be mutual interference between the two stations in the Sacramento area and little if any service provided by the Channel 12 station in the Stockton area. There is substantial disagreement among the parties and their engineers on the severity of the predicted adjacent channel interference. Nevertheless, it is beyond dispute that such interference would limit the service areas of both stations. Both adjacent channel stations, we believe, would, as a result, be handicapped in competing with the other two Sacramento commercial stations. With all of the other local commercial stations operating from their common site south of Sacramento, a Channel 12 facility located over 38 miles north of Sacramento would, because of distance and adjacent channel interference, be in a more unfavorable position for providing a competitive and comparable television service in the Sacramento-Stockton market.

21. It is true, as Capitol Radio points out, that our rules do not contemplate that adjacent channel interference will be considered in assigning television channels when minimum transmitter spacing requirements are met. This has application, however, to the assignment of channels to serve different cities. The minimum required spacings are considered satisfactory protection from interference to the service areas of adjacent channel stations serving different cities. It has never been our policy, however, to assign adjacent channels to serve the same city. The mutual interference caused to adjacent channel stations attempting to serve the same city from transmitter sites in close proximity and in different directions would make it impossible for either adjacent channel to be effectively and efficiently used.

22. *San Francisco.* Channel 12 could be assigned to San Francisco and meet all separation requirements by substituting Channel 11 for Channel 12 at Chico. In order to meet the required 60-mile adjacent channel spacing to Station KNTV on Channel 11 at San Jose, it would be necessary to use Channel 12 at a transmitter site about 5 miles north of the city. (Channel 12 could not be located at the sites of the existing stations on Mt. Sutro, in the heart of San Francisco, or on Mt. Bruno, a few miles south of Mt. Sutro.) Furthermore, in order to obtain sufficient antenna height to serve San Francisco a Channel 12 transmitter site would probably have to be located 17-20 miles north of the city. Patterson's assumed site is on a mountain peak about 17 miles north of San Francisco in Marin County, and he urges that other suitable sites are available in this general area.

23. Parties opposing the proposal contend that shadowing would prevent satisfactory service from a location north of the city. It is also asserted that adjacent channel interference from the San Jose station would not permit efficient use of Channel 12 at any such sites nor enable a Channel 12 station

to provide a comparable and competitive fifth VHF commercial service in the San Francisco-Oakland market. There is no sufficient evidence in the record to make a definitive judgment on these allegations. We are not convinced, however by Patterson's showing that a Channel 12 station in any areas where it could be located would not be under some handicap because of location, shadowing problems and adjacent channel interference from Station KNTV at San Jose in effectively serving and competing in the San Francisco-Oakland market, particularly the highly populated southern portion of it.

24. A Channel 11 assignment at San Francisco would involve the same restrictions on location and other handicaps with Station KNTV at San Jose shifting to Channel 12, as proposed. In addition, with Station KNTV operating on Channel 12, a co-channel Santa Maria station would be restricted to an antenna site some 22 miles south of Santa Maria unless Station KNTV moved to a more northerly site.

25. *Conclusion.* The record bears out, we believe, that both the San Francisco and Sacramento television markets are of a size and importance that can support additional local outlets⁷ and that the varied television needs of both areas are not fully satisfied by the multiple VHF services available. Unfortunately, the same is true, to a greater or lesser extent, at this time in most of the major markets of the country where, as in the San Francisco and Sacramento markets, all VHF assignments are in use and further expansion of television outlets and services on the more plentiful UHF frequencies available has been deterred because of the well-known problems of UHF operation in established VHF areas. We are hopeful that by interim and long-range measures we will be successful in eliminating the obstacles to a fuller and more effective use of the broadcast frequencies available for satisfying the television needs of large and small markets throughout the country. With four local commercial services and an educational service available in the San Francisco area and three local commercial services and an educational service available to the Sacramento area, we are not persuaded, however, that the need of either area for additional service at this time is one of extreme urgency.

26. In our recent decision in Docket No. 13340 on our interim policy on VHF television channel assignments, we elaborated on the interim channel assignment program which the country-wide tele-

⁷ U.S. Census Reports, 1960, indicate that San Francisco-Oakland is the No. 6 ranking metropolitan statistical area with a population of 2,783,359. The city population of San Francisco was 740,312; that of Oakland, 367,548. Sacramento, the capital of the State of California, had a city population of 191,667, and the Sacramento metropolitan statistical area was 52d in rank with a population of 502,778 (same population as that of Sacramento County). Stockton had a population of 86,321, and San Joaquin County, in which it is situated, a population of 249,989.

vision situation, in our judgment, now requires us to pursue.³

27. We believe it in accord with this policy and the public interest to use the few available VHF frequencies to bring, insofar as possible, needed television service to major VHF markets lacking three local services and to other smaller VHF areas needing local outlets and service when it would not impinge significantly upon existing UHF service. With the 12 VHF channels virtually saturated, augmenting VHF assignments at either San Francisco or Sacramento would eliminate one of the few possibilities remaining for a ready solution to the need for local television outlets and service in VHF areas in northern California which are more under-served than the Sacramento and San Francisco areas. We are therefore not persuaded that it is desirable in the public interest at this time to utilize the extremely scarce resources of VHF spectrum space for either a fourth VHF commercial service in the Sacramento-Stockton area or a fifth VHF commercial service at San Francisco. For this reason, and also because of the obstacles to making effective use of Channel 12 at Sacramento or in the San Francisco area which we have discussed, as well as the changes which would be required in assignments and operating frequencies of stations in other cities, we are opposed to the adoption of the alternative proposals before us for assignment of an additional VHF Channel to San Francisco or Sacramento.

SANTA ROSA PROPOSALS

28. In order to assign Channel 12 to Santa Rosa, as Television Diablo and Westinghouse propose, Station KHSI-TV (Channel 12) at Chico would have to shift to another frequency. (Station KHSI-TV is only about 118 miles from Santa Rosa.) Television Diablo's proposal would replace Channel 12 at Chico with Channel 11. The Westinghouse proposal would substitute Channel 8 instead of Channel 11 at Chico. In addition, it would require the existing Reno Channel 8 station (Station KOLO-TV) to shift to another frequency. The advantage claimed by Westinghouse in putting Channel 8 instead of Channel 11 in Chico is that Station KHSI-TV would not then be operating on the same channel as the Channel 11 San Jose station (KNTV) or on a channel adjacent to Channel 10 at Sacramento (KXTV), thereby providing greater potential service areas for all of these stations.

29. Santa Rosa is in a growing area of northern California⁴ and without local television service. Notwithstanding, we cannot conclude from the record that either proposal for assigning Channel 12 to Santa Rosa merits adoption. The proponents of the proposals, licensees of

existing stations at Stockton and San Francisco who oppose the assignment of Channel 12 to their respective areas, did not indicate that they themselves were interested in establishing a local station at Santa Rosa. Nor does the record reveal that others may be interested in doing so. In light of the signals received in the Santa Rosa area from the San Francisco stations, we believe it is questionable whether the channel could be effectively used there. These factors, as well as the changes in frequency required for existing stations, compel us to the conclusion that adoption of neither counterproposal is warranted at this time.

ACTION

30. In view of the foregoing: *It is ordered*, That all the conflicting proposals and requests for the assignment of Channel 12 to Sacramento, to the San Francisco area (either directly or to San Jose), or to Santa Rosa are denied; and, 31. *It is further ordered*, That this proceeding is terminated.

Adopted: November 15, 1961.

Released: November 17, 1961.

TELEVISION BROADCAST STATIONS; KENTUCKY

Proposed Table of Assignments

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The Commission has before it for consideration the petition for rule making filed July 24, 1961 by The Commonwealth of Kentucky requesting an amendment of § 3.606(b) of the Commission's rules and regulations so as to assign and reserve for non-commercial use 9 UHF television channels as follows:

City	Channel No.	
	Present	Proposed
Ashland, Ky.....	59-	*59-
Bowling Green.....	13, 17+	13, *17+
Hazard.....	19-	*19-
Madisonville.....	26	*26
Maysville.....	24+	*24+
Morehead.....	33-	*33-
Murray.....	14-	*14-
Pikeville.....	29-	*29-
Somerset.....	20-	*20-
Covington.....	5-	*5-
Cincinnati, Ohio.....	5-, 9, 12, *48-, 54-, 74-	5-, 9, 12, *48-, 74-

3. In support of its request The Commonwealth of Kentucky submits that the Kentucky General Assembly delegated to the Kentucky Legislative Research Commission the responsibility of studying the possible use of educational television in the school system of the state; that the factual study of this group concludes that the educational

system of Kentucky needs significant improvement; and that the January 1962 regular session of the Assembly will be asked to approve an enabling act for a state-wide educational television network and to appropriate funds for its construction and operation. It urges that its proposal is an integrated and carefully thought out plan for such a state-wide network and requests the Commission to act upon it as soon as possible. It further states that a knowledge of the number and location of channels reserved for education is necessary before the General Assembly can be expected to take constructive action on the request for legislation.

4. In Docket No. 14229 the Commission is considering measures which would enhance the opportunities for successful use of the UHF television channels. Included in the proposals made in that proceeding is one which would eliminate the present television Table of Assignments for UHF and substitute a system in which applicants would apply for the lowest available UHF channel without antecedent rule making. It is at the same time proposed to establish a "pool" of UHF channels reserved for existing VHF stations and for educational purposes. Thus, the entire matter of UHF assignments is under study in that proceeding.

5. Until the matter of overall allocation policy can be decided, we believe it would be inappropriate to reserve large blocks of channels such as requested by the Petitioner, particularly since immediate construction is not contemplated. We are, however, mindful of the need for additional channels for educational television in Kentucky and believe that a sufficient showing has been made to institute rule making concurrently with that in Docket 14229. This will allow consideration of the request for reservation of UHF channels in the 9 communities named in light of the decisions made in the overall UHF proceeding.

6. Authority for adoption of the proposed amendments is contained in sections 4 (i) and (j), 303 and 307(b) of the Communications Act of 1934, as amended.

7. Pursuant to applicable procedures set out in § 1.213 of the Commission's rules, interested persons may file comments on or before February 5, 1962, and reply comments on or before March 9, 1962. In reaching its decision herein, the Commission will not be limited to consideration of comments of record, but will take into account all relevant information obtained in any manner from informed sources.

8. In accordance with the provisions of § 1.54 of the rules, an original and 14 copies of all written comments and statements shall be furnished to the Commission.

Adopted: November 15, 1961.

³ Report and Order (FCC 61-994), adopted July 27, and released August 3, 1961, in Docket No. 13340.

⁴ The U.S. Census for 1960 indicates that Santa Rosa had a population of 31,027 in 1960, which constitutes a 73.3 percent increase over its population in 1950 (17,902 people). Sonoma County, of which it is the county seat, grew from 103,405 persons in 1950 to 147,375 persons in 1960 (a 42.5 percent increase).

**TELEVISION BROADCAST STATIONS;
ONEONTA, ROCHESTER, AND
GLOVERSVILLE, N.Y.****Proposed Table of Assignments**

1. The Commission has before it for consideration, a petition filed September 15, 1961 by William J. Calsam asking that Channel 15 be substituted for Channel 62 at Oneonta, New York, by amending Section 3.606 of our rules as follows:

City	Channel No.	
	Present	Proposed
Oneonta, N.Y.	62-	15-
Rochester, N.Y.	8, 10+, 13-, 15-, *21, 27+	8, 10+, 13-, *21, 27+, 62-
Gloversville, N.Y.	29-	62+

¹ Petitioner states that Channels 5, 10, 15, *21, and 27 are assigned to Rochester, however, by Commission orders released August 31, 1961 in Dockets 13858 and 13859. Channel 5 was changed to Channel 8 in Rochester and Channel 13 was assigned to that city. This tabulation for Rochester reflects these changes.

2. Petitioner states that he intends to apply for authority to construct and operate a new television broadcast station at Oneonta, New York, which city is now without local television service; that Channel 15 can be substituted for Channel 62 in that community; that he believes he can operate a UHF television broadcast station successfully in the Oneonta market; and that he is of the opinion that a lower UHF channel than now assigned will substantially enhance the potential of that market.

3. The Commission is of the view that a rule making proceeding should be instituted in this matter in order that interested parties may submit their views on this proposal. Unless an active interest is manifested we find it desirable in the public interest to defer action on making available substitute UHF channels for Rochester and Gloversville, New York, until decisions are reached in Docket 14229 concerning the future methods of assigning stations on UHF channels.

4. Accordingly, it is proposed to amend the Table of Assignments as follows:

City	Channel No.	
	Present	Proposed
Oneonta, N.Y.	62-	15-
Rochester, N.Y.	8, 10+, 13-, 15-, *21, 27+	8, 10+, 13-, *21, 27+
Gloversville, N.Y.	29-	

5. It should be noted that Oneonta is located less than 250 miles from the Canada-USA border and assignments to that community fall within the purview of the Canada-USA television agreement. Appropriate steps thereunder will be undertaken by the Commission.

6. Authority for adoption of the amendments proposed herein is contained in sections 4 (i) and (j), 303 and 307(b) of the Communications Act of 1934, as amended.

7. Pursuant to applicable procedures set out in § 1.213 of the Commission's

rules, interested parties may file comments on or before December 22, 1961, and reply comments on or before January 5, 1962. In reaching its decision herein, the Commission will not be limited to consideration of comments of record, but will take into account all relevant information obtained in any manner from informed sources.

8. In accordance with the provisions of § 1.54 of the rules, an original and 14 copies of all written comments and statements shall be furnished to the Commission.

Adopted: November 15, 1961.

Released: November 17, 1961.

**TELEVISION BROADCAST STATIONS;
EAST LANSING, MICH.****Proposed Table of Assignments**

1. Notice is hereby given of rule making in the above-entitled matter.

2. The Commission has under consideration a petition filed August 10, 1961 by the Superintendent of Public Instruction for the State of Michigan asking that § 3.606 of the Table of Television Assignments be amended to assign and reserve for educational use television channel 18 in East Lansing, Michigan. The city has a population of 30,198 according to the 1960 U.S. Census. It is located immediately east from the city of Lansing, the state capital, which has a population of 107,807. Channel 60

is assigned to East Lansing, but no application has been made for this channel. Michigan State University is licensed to operate Station WMSB on Channel 10 at Onondaga, Michigan, with its main studio located on the university campus at East Lansing. It operates as a non-commercial educational station and shares the channel with commercial station WILX-TV in Onondaga which has its main studio in Jackson, Michigan. Both stations use the same transmitter.

3. The petitioner asserts that studies and plans have been under way for several years looking to the use of various television channels which have been reserved for education in Michigan. It is claimed that material gathered from many schools, colleges and universities in Michigan supports the need for an educational television reservation near the capital of Michigan, that since East Lansing is an educational center immediately adjacent to the capital the reservation of Channel 18 for educational use will be desirable and will fit in with the developments for statewide distribution systems, and that schools and colleges in East Lansing have indicated their desire for educational television usage and their willingness to assume leadership in the utilization of this channel.

4. While commercial Channel 60 is assigned to East Lansing and would be available for educational use, the petitioner prefers to have Channel 18 assigned to that community for educational use because under the present state of the art equipment for the higher UHF channels, it is claimed, does not provide as extensive and dependable a service as equipment for the lower UHF channels.

5. The petitioner states that should the request be granted it is expected that Michigan State University in East Lansing will, with the support of the public schools and the schools and colleges in that community and the Office of the Superintendent of Public Instruction file an application to build an educational television station on Channel 18. Michigan State University is now licensed to operate Station WMSB on Channel 10 and does carry educational programs for direct classroom use. It is limited in this respect, it is asserted, by the requirement that it meet other programming needs and by its channel sharing arrangement with commercial station WILX-TV. The UHF station would be available full time for direct instructional programs in schools, and for the production of such programs for statewide use.

6. As a precedent for granting its request, the petitioner refers to the Metropolitan Pittsburgh Educational Television Association which is licensed to operate educational television Stations WQED and WQEX on Channels 13 and 16, respectively, at Pittsburgh, Pennsylvania, with the UHF station being devoted mainly to classroom use. Michigan State University expects to follow the same pattern of dual operation should the petition be allowed and its projected application for Channel 18 granted. It would continue the present

Channel 10 operation and would, in cooperation with the schools in central Michigan, supplement its present service with additional instruction on Channel 18.

7. The Commission is of the view that a rule making proceeding should be instituted in this matter in order that interested parties may submit their views on this proposal. Accordingly, it is proposed to amend the Table of Assignments as follows:

City	Channel No.	
	Present	Proposed
East Lansing, Mich....	60+	60+, *18-

8. It should be noted that East Lansing is located less than 250 miles from the Canada-USA border and assignments to that community fall within the purview of the Canada-USA television agreement. Appropriate steps thereunder will be undertaken by the Commission.

9. Authority for adoption of the amendment proposed herein is contained in section 4 (i) and (j), 303 and 307(b) of the Communications Act of 1934, as amended.

10. Pursuant to applicable procedures set out in § 1.213 of the Commission's rules, interested parties may file comments on or before December 22, 1961, and reply comments on or before January 5, 1962. In reaching its decision herein, the Commission will not be limited to consideration of comments of record, but will take into account all relevant information obtained in any manner from informed sources.

11. In accordance with the provision of § 1.54 of the rules, an original and 14 copies of all written comments and statements shall be furnished to the Commission.

DEINTERMIXTURE OF CERTAIN CITIES Extension of Time for Filing Comments on Proposed Rule Making Proceedings

In the matter of Deintermixture of Madison, Wis.; Rockford, Ill.; Hartford, Conn.; Erie, Pa.; Binghamton, N.Y.; Champaign, Ill.; Columbia, S.C.; and Montgomery, Ala.; Docket Nos. 14239, 14240, 14241, 14242, 14243, 14244, 14245, 14246.

At a session of the Federal Communications Commission held at its offices in Washington, D.C. on November 15, 1961;

The Commission has before it petitions for additional time to file comments in

these rules making proceedings. We are persuaded by the pleas that more time will serve the public interest and are hereby extending the filing dates for an additional 60 days.

The prompt dispatch of public business is a matter of pressing concern. The grant herein of a further postponement, putting off to February 5, 1962 the date for filing comments in proceedings announced as early as last July 28, underlines our view that the total period of time that will have been allowed must be considered to meet every reasonable test of generous process.

Accordingly, it is ordered, That the petitions are granted to the extent indicated, and the time for filing comments and replies in these proceedings is extended to February 5, 1962 and March 9, 1962, respectively.

TELEMETERING DEVICES AND WIRELESS MICROPHONES

Notice of Proposed Rule Making

1. Notice is hereby given of proposed rule making in Part 15 of the Rules of the Federal Communications Commission to make the frequency band 88-108 Mc/s available for use by low power telemetering devices and wireless microphones.

2. Although telemetering devices and wireless microphones have not been the subject of interference complaints, the Commission is aware that these devices are being operated throughout the entire 30-100 Mc/s band. Manufacturer's literature, articles in periodicals, letters of inquiry to the Commission, etc., have indicated the wide interest in such use. In addition, the Commission has noted that the medical profession is making more and more use of telemetering devices in the 88-108 Mc/s band because of the availability of receivers and the advantages of radio over wire transmission of physiological data.

3. Furthermore, the unrestricted operation of these devices over the range of frequencies 30-100 Mc/s poses an interference threat to licensed radio services concerned with the protection of life and property. In order to clear up these illegal operations, the proposed rules would make available the frequency band 88-108 Mc/s. The proposed rules also specify field strength limits which make remote the possibility of harmful interference to other radio users, and require type approval, based on measurements in our own laboratory as a control mechanism.

4. Operators of telemetering devices and wireless microphones will be expected to confine their activities to these proposed frequencies. The Commission solicits the cooperation of manufac-

turers in marketing a product which will comply with such rules as may be adopted. Failure to do so may subject the purchaser or user to prosecution by the Federal government.

5. This proposal to amend the Commission's rules is issued under the authority of sections 4(i), 301 and 303(r) of the Communications Act of 1934, as amended.

6. Any interested person who is of the opinion that the proposed amendment should not be adopted in the form set forth herein, may file with the Commission on or before January 15, 1962, written data, views, or arguments setting forth his comments. Comments in support of these proposals may also be filed on or before the same date. Comments on briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. In reaching its decision on the rule changes which are proposed herein, the Commission will not be limited to consideration of comments of record, but will take into account all relevant information obtained in any manner from informed sources.

7. In accordance with the provisions of § 1.54 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments filed shall be furnished the Federal Communications Commission.

Adopted: November 15, 1961.

Released: November 17, 1961.

FEDERAL COMMUNICATIONS
COMMISSION,

[SEAL] BEN F. WAPLE,
Acting Secretary.

Amend Part 15 as follows:

1. A note is added at the end of § 15.7 as follows:

§ 15.7 General requirements for restricted radiation devices.

* * * * *

NOTE: Radio receivers, community antenna television systems and low power communication devices are regulated elsewhere in Part 15 and are not regulated by this section.

2. Section 15.201(c) is added to read as follows:

§ 15.201 Frequencies of operation.

* * * * *

(c) Telemetering devices and wireless microphones may be operated in the band 88-108 Mc/s in accordance with the provisions of § 15.212.

3. Sections 15.212-15.216 are added to read as follows:

§ 15.212 Operation in the band 88-108 Mc/s.

(a) Operation in the band 88-108 Mc/s is limited to low power communication devices employed as telemetering devices or as wireless microphones. These bands shall not be used for two-way communication.

(b) Users of these devices shall take adequate precautions to insure that harmful interference is not caused to the reception of any FM or television broadcast station or any other class of station licensed by the Commission. In the event that such interference does occur,

operation of the telemetering device or wireless microphone shall be promptly suspended and shall not be resumed until the interference has been eliminated. Users of these devices must accept any interference which may be caused by the operation of any licensed station operating in accordance with the terms of its license.

(c) The frequency stability of a wireless microphone shall be ± 0.01 percent.

(d) Emissions from the device shall be confined within a band 200 kc/s wide centered on the operating frequency. Such 200 kc/s band shall lie wholly within the frequency range 88-108 Mc/s.

(e) The field strength of emissions radiated within the specified 200 kc/s band shall not exceed 50 uv/m at a distance of 50 feet or more from the device.

(f) The field strength of emissions radiated on any frequency outside the specified 200 kc/s band shall be suppressed 30 db or more below the mean output power of the device.

(g) No such device shall be operated unless it has been type approved pursuant to § 15.213.

(h) No antenna other than that furnished by the manufacturer and which has been type approved shall be used with any such device.

§ 15.213 Type approval.

(a) A manufacturer of a telemetering device or wireless microphone who desires to obtain type approval for his equipment may request permission to submit such equipment to the Commission for testing by following the procedure set out in Subpart F of Part 2 of this chapter as modified by this section. The request shall state that at least 10 units are proposed to be manufactured and shall contain a report of measurements showing that the equipment is capable of complying with the requirements of § 15.212.

(b) To receive type approval, telemetering devices and wireless microphones must meet the following requirements:

(1) The device must comply with the technical limitations of § 15.212.

(2) The design and construction of the equipment must give reasonable assurance of compliance with the technical limitations of § 15.212 for at least 5 years under normal operation and with average maintenance.

(3) The device must be so constructed that the adjustment of any control accessible to the user shall not cause radiation of electromagnetic energy in excess of that specified in § 15.212 (d) and (e).

§ 15.214 Identification of type approved devices.

The Commission will assign a type approval number to each telemetering device or wireless microphone which is type approved. The type approval number and the following statement shall be permanently inscribed upon or attached to each production unit as follows:

FCC Type Approval No. -----
Approved for use only with antenna
furnished by manufacturer

§ 15.215 Changes in type approved equipment.

No changes whatsoever may be made in telemetering devices or wireless microphones for which a certificate of type approval has been issued except on specific prior approval by the Commission.

§ 15.216 Withdrawal of certificate of type approval.

(a) A certificate of type approval may be withdrawn if the type of equipment for which it was issued proves defective in service and under usual conditions of maintenance and operation such equipment cannot be relied on to meet the conditions set forth in this part for the operation of the type of equipment involved, or if any change whatsoever is made in the construction of equipment sold under the certificate of type approval issued by the Commission, without the specific prior approval of the Commission.

(b) The procedure for withdrawal of the certificate of type approval shall be the same as that prescribed for revocation of a radio station license pursuant to the provisions of the Communications Act of 1934, as amended.

(c) In the case of withdrawal of a certificate of type approval the manufacturer shall make no further sale of equipment under such certificate.

(d) When a certificate of type approval has been withdrawn for unauthorized changes or for failure to comply with technical requirements, the Commission will consider that fact in determining whether the manufacturer in question is eligible to receive any new certificate of type approval.

LICENSING OF INDEPENDENT OCEAN FREIGHT FORWARDERS

Notice of Proposed Rule Making

Notice is hereby given in accordance with the provisions of section 4, Administrative Procedure Act (5 U.S.C. 1003) and sections 43 and 44 of the Shipping Act, 1916 (75 Stat. 522, 523, and 766); section 204, of the Merchant Marine Act, 1936 (49 Stat. 1987, as amended; 46 U.S.C. 1114), that the Federal Maritime Commission is considering the promulgation of the regulation set forth hereinafter affecting the licensing of independent ocean freight forwarders.

Interested parties may participate in this proposed rule making by submitting written statements, data, views, or arguments pertaining thereto, in triplicate, to the Secretary, Federal Maritime Commission, Washington 25, D.C. All relevant matter and communications must be submitted, for consideration by the

Commission, by close of business on December 5, 1961.

Dated: November 9, 1961.

By order of the Federal Maritime Commission.

THOMAS LIST,
Secretary.

A new part and subpart are hereby added to Chapter IV of this title reading as follows:

PART 510—LICENSING OF INDEPENDENT OCEAN FREIGHT FORWARDERS

Subpart A—General

Sec.	
510.1	Scope.
510.2	Definitions.
510.3	Licenses, when required.
510.4	Licenses, when not required.
510.5	Requirements for licensing.
510.6	Publication of applications.
510.7	Investigation of applicants.
510.8	Issuance or denial of licenses.
510.9	Revocation or suspension of licenses.

AUTHORITY: §§ 510.1 to 510.9 issued under secs. 43 and 44 of the Shipping Act, 1916 (75 Stat. 522, 523, and 766); section 204 of the Merchant Marine Act, 1936 (49 Stat. 1987, as amended; 46 U.S.C. 1114).

Subpart A—General

§ 510.1 Scope.

This subpart sets forth regulations providing for the licensing as independent ocean freight forwarders of persons, including individuals, corporations, partnerships, and associations, desiring to carry on the business of forwarding, the procedure for applying for licenses, the qualifications required of the applicants, and the grounds for revocation or suspension of licenses.

§ 510.2 Definitions.

(a) An "independent ocean freight forwarder" is a person carrying on the business of forwarding for a consideration who is not a shipper or consignee or a seller or purchaser of shipments to foreign countries, nor has any beneficial interest therein, nor directly or indirectly controls or is controlled by such shipper or consignee or by any person having such a beneficial interest.

(b) The term "carrying on the business of forwarding" means the dispatching of shipments by any person on behalf of others, by oceangoing common carriers in commerce from the United States, its Territories, or possessions to foreign countries, or between the United States and its Territories or possessions, or between such Territories and possessions, and handling the formalities incident to such shipments.

(c) The term "freight forwarding service" means a service rendered by an independent ocean freight forwarder on behalf of other persons in the process of dispatching or facilitating an export shipment as authorized by such persons. Such service includes, but is not limited to, the following: Examining instructions and documents received from shippers; ordering cargo to port; preparing export declarations; booking cargo space; preparing and processing

delivery orders and dock receipts; preparing instructions to truckmen or lightermen, and arranging for, or the furnishing of truck and lighters; preparing and processing ocean bills of lading; preparing consular documents in the language of the country to which the goods are shipped and arranging for their certification; arranging for or furnishing warehouse storage when necessary; arranging for insurance when so instructed; clearing shipments in accordance with United States Government regulations; preparing advice notices of shipments and sending copies thereof to banks, shippers, or consignees as required; sending completed documents to shippers, banks, or consignees as directed; advancing necessary funds in connection with the foregoing; providing supervision in the coordination of services rendered to shipments from origin to vessel; rendering special services on unusual shipments or when difficulties in transit arise; and giving expert advice to exporters as regards letters of credit, licensees, inspections.

(d) The term "person" includes individuals, corporations, partnerships, associations, and other legal entities existing under or authorized by the laws of the United States, or any State, Territory, District or possession thereof, or the Commonwealth of Puerto Rico, or of any foreign country.

§ 510.3 Licenses, when required.

(a) No person shall engage in carrying on the business of forwarding as defined herein unless such person holds a license issued by the Federal Maritime Commission to engage in such business. A license to carry on the business of forwarding may be granted by the Commission upon application submitted in accordance with the regulations in this part.

(b) In order to comply with section 44(b), of the Shipping Act, 1916, as amended (P.L. 87-254, approved September 19, 1961), a freight forwarder who on September 19, 1961, held a valid certificate of registration, issued pursuant to 46 CFR Part 244 (General Order 72 (15 F.R. 3153)) must file an application on Form FMC-18,¹ prescribed herein, on or before midnight January 17, 1962, in order to continue in the business of forwarding pending action of the Commission on such application.

(c) Application for a license as an independent ocean freight forwarder shall be made on Form FMC-18 (Application For A License As An Independent Ocean Freight Forwarder), copies of which may be obtained from the Secretary, Federal Maritime Commission, Washington 25, D.C.

§ 510.4 Licenses, when not required.

(a) Any person whose primary business is the sale of merchandise may dispatch such merchandise without a license.

(b) An employee of a licensed independent ocean freight forwarder is not required to be licensed in order to act solely for his employer; but each licensed independent ocean freight forwarder

will be held strictly responsible for the acts or omissions of his employees.

§ 510.5 Requirements for licensing.

(a) A forwarder's license shall be issued to any qualified applicant therefor if it is found that the applicant is, or will be, (1) an independent ocean freight forwarder as defined herein, (2) fit, willing, and able properly to carry on the business of forwarding and to conform to the provisions of the Shipping Act, 1916, as amended, and the requirements, rules, and regulations of the Commission issued thereunder, (3) and that the proposed forwarding business is, or will be, consistent with the national maritime policies declared in the Merchant Marine Act, 1936; (4) otherwise such application shall be denied.

(b) A person desiring to engage in carrying on the business of forwarding shall submit to the Secretary, Federal Maritime Commission, Washington 25, D.C., an application in duplicate, executed on Form FMC-18, hereby prescribed for this purpose. Such application shall be accompanied by an application fee of \$100 by money order, certified or cashier's check, made payable to the Federal Maritime Commission. The application fee is not refundable.

(c) Each applicant for a license and each independent ocean freight forwarder to whom a license has been issued, shall submit to the Commission each change of business address, and any other changes in the facts called for in Form FMC-18, within 30 days after such changes occur, and any other additional information required by the Commission.

(d) The applications received will be assigned application numbers and each applicant will be informed as to the number assigned to his application.

(e) In the case of applicants who may continue in the business of forwarding under section 44(b), Shipping Act, 1916, as amended, each such applicant shall, pending issuance of his license, conduct his ocean freight forwarding operations under the registration number previously assigned him under the provisions of 46 CFR Part 244 (General Order 72) and the application number. After a license number has been assigned, such operations shall be conducted under that number only. Such license number shall be set forth on the licensee's letterhead, invoices and shipping documents.

(f) Prior to the issuance of a license to an independent ocean freight forwarder such forwarder shall file with the Commission, a bond in such form and amount as the Commission may require. The said bond shall be kept in effect as long as the license remains effective.

§ 510.6 Publication of applications.

After application has been filed, the Commission shall cause to be published in the FEDERAL REGISTER a notice of the filing of each application, stating the name and address of the applicant and if the applicant is a corporation, association, or partnership, the names of the officers or members thereof. Parts 1 and 2 of the application shall be public information and available for inspection at the office of the Commission in Washington, D.C.

§ 510.7 Investigation of applicants.

All applicants shall be investigated and such investigation shall seek information relevant to the applicant's qualifications for a license, including (a) the correctness of the statements made in the application, (b) the business integrity and financial responsibility of the applicant, (c) the character and experience of the applicant, officers or members of the corporation or partnership as the case may be, and (d) such further evidence of the fitness, willingness, and ability of the applicant properly to carry on the business of forwarding as the Commission may require.

§ 510.8 Issuance or denial of licenses.

(a) After evaluation of the results of the investigation, the Commission will issue a license to an applicant found to be qualified within the provisions of applicable statutes and the requirements, rules, and regulations of the Commission thereunder, otherwise such application shall be denied. Prior to the denial of a license the Commission shall advise the applicant of its intention to do so and state the reasons therefor. If the applicant within 20 days after the receipt of such advice requests a hearing on his application, such hearing shall be granted by the Commission pursuant to its rules of practice and procedure.

(b) The Commission will issue licenses only in the name of the person applying therefor. Where such person is a partnership, association, corporation or similar legal entity, the license will be issued in the legal name thereof. Licenses will not be issued to partnerships unless all partners execute the application.

(c) Only one license shall be issued to any person, regardless of the number of names under which such person may be doing business. Where two or more persons are owned or controlled by substantially the same interests, they shall be treated as one entity for the purpose of licensing and only one license shall be issued.

(d) Licenses shall not be transferrable without the prior approval of the Commission.

§ 510.9 Revocation or suspension of licenses.

A license may be revoked or suspended after notice and hearing for any of the following reasons:

(a) Violation of any provision of the Shipping Act, 1916, as amended, or of any other statute related to carrying on the business of forwarding.

(b) Failure to respond to any lawful inquiries, or to comply with any lawful rules, regulations, or orders of the Commission.

(c) Making any wilfully false statement to the Commission in connection with an application for a license or its continuance in effect.

(d) Change of circumstances whereby the licensee no longer qualifies as an independent ocean freight forwarder.

(e) Such conduct as the Commission shall find renders the licensee unfit or unable to carry on the business of forwarding.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Arizona 017239]

ARIZONA

Notice of Proposed Withdrawal and Reservation of Lands

The Bureau of Reclamation, United States Department of the Interior, has filed application, serial number Arizona 017239 for the withdrawal of the lands described below, from public entry under the first form of withdrawal as provided by section 3 of the Act of June 17, 1902 (32 Stat. 388), subject to existing rights. The applicant desires the lands for the proposed Buttes Dam and Reservoir, for borrow pit areas, river channelization above the reservoir, and for railroad relocation. The primary purpose will be to supply supplemental water via a supply canal for irrigation demands of the San Carlos Project, to provide sediment storage, and to give flood protection to the Gila River Valley.

The grazing of the public lands will continue to be administered by the Bureau of Land Management until the lands are actually required for project purposes.

For a period of thirty (30) days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, United States Department of the Interior, P.O. Box 148, Phoenix 1, Arizona.

If circumstances warrant it, a public hearing will be held at a convenient time and place which will be announced. The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in this application are:

DEPARTMENT OF AGRICULTURE

Office of the Secretary

ALABAMA

Designation and Extension of Areas for Emergency Loans

For the purpose of making emergency loans pursuant to section 321 (a) of Public Law 87-128 (7 U.S.C. 1961) it has been determined that in the following counties in the State of Alabama a natural disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

ALABAMA

Blount.	Etowah.
Calhoun.	Randolph.
Cherokee.	St. Clair.
Cleburne.	Shelby.
DeKalb.	Talladega.

It has also been determined that the natural disaster for which Marengo and Wilcox Counties, Alabama, were designated (26 F.R. 1936) has resulted in a continuing need in those counties for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

Pursuant to the authority set forth above, emergency loans will not be made in any of the counties listed herein after June 30, 1962, except to applicants who previously received such assistance and who can qualify under established policies and procedures.

Done, at Washington, D.C., this 15th day of November 1961.

ORVILLE L. FREEMAN,
Secretary.

[Docket No. 50-146]

SAXTON NUCLEAR EXPERIMENTAL CORP.

Notice of Issuance of Provisional Operating License

Please take notice that pursuant to the Intermediate Decision of the Hearing Examiner dated October 11, 1961, the Director of the Division of Licensing and Regulation has issued Provisional Operating License No. DPR-4 to Saxton Nuclear Experimental Corporation for its pressurized water nuclear reactor located near the Borough of Saxton in Liberty Township, Bedford County, Pennsylvania.

The license authorizes operation of the reactor at steady state power levels not in excess of 20 megawatts thermal but specifies that operation shall not begin until the Director, Division of Licensing and Regulation, has found that construction of the facility has been completed in conformity with the Final Safeguards Report. The license further authorizes the loading of the first core and the operation of the facility with the reactor head off at a power level not exceeding 200 kilowatts thermal prior to the completion of certain specified systems.

The license will expire on December 31, 1962 (unless extended for good cause shown) or upon the earlier issuance of a superseding operating license pursuant to further order of the Commission.

Copies of the Intermediate Decision and the license are on file in the Commission's Public Document Room, 1717 H Street NW., Washington, D.C.

Dated at Germantown, Md., this 15th day of November 1961.

FEDERAL AVIATION AGENCY

[OE Docket No. 61-EA-26]

PROPOSED WATER STORAGE STRUCTURE

Determination of Hazard to Air Navigation

The Federal Aviation Agency has circularized the following proposal to interested persons for aeronautical comment and has conducted a study to determine its effect upon the safe and efficient utilization of airspace: The Joint Board of Water Commissioners, Town of Abington and Town of Rockland, Massachusetts, proposes to construct a water storage structure in Rockland, Massachusetts, at latitude 42°07'43" north, longitude 70°55'44" west. The overall height of the structure would be 298.5 feet above mean sea level (153.5 feet above ground).

Objections were made in response to the circularization and at the Federal Aviation Agency New York Informal Airspace Meeting by the Department of the Navy with respect to the effect of the proposed structure on operations at the South Weymouth NAS. They are summarized as follows:

1. The proposed structure will necessitate raising the current GCA weather minimums from ceiling 200 feet and visibility ½ mile, to at least, ceiling 400 feet and visibility 1 mile.

2. The GCA glide path would have to be increased from 3 degrees to 3.8 degrees. Anything over 3 degrees is undesirable. This increase would preclude precision radar approaches to Runway 35. Runway 35 is the best runway on

which to conduct IFR operations because it is 7000 feet long. IFR approaches to Runway 17 are not desirable due to their effect on IFR operations into and out of Boston.

3. The point of touchdown for GCA approaches would have to be moved approximately an additional 1000 feet inboard and this would reduce the usable length of the runway to 5000 feet. This is not satisfactory for jet aircraft operations.

4. The proposed structure would require an increase in the TACAN weather minimums to ceiling 500 feet, visibility 1 mile. This would preclude approximately 1000 landings a year.

5. The proposed structure would violate the Navy Bureau of Weapons criteria by penetrating 60 feet into the 50:1 slope of the Instrument Approach Surface.

6. The proposed structure would penetrate the Instrument Approach Surface, contained in TSO-N18, by 44 feet.

The Department of the Navy reported that South Weymouth NAS:

(a) Is a Navy all-Weather Air Station and represents a sizeable investment;

(b) Is the primary naval air station for the Boston Area;

(c) Is the base for considerable reserve flying activity on week-ends;

The proposed structure would be located 3800 feet southeast of the approach end of the South Weymouth NAS Runway 35 and 400 feet east of the runway centerline extended. It would require an increase in the minimum approach altitude from 561 feet MSL (400 feet minimum ceiling) to 661 feet MSL (500 feet minimum ceiling) for Instrument Approach Procedure AL-400-TACAN. It would also require an increase from 3.0 degrees to 3.8 degrees in the glide angle for aircraft making precision radar instrument approaches. This glide angle would be excessive and unacceptable for jet aircraft, thus derogating the precision radar instrument approach procedure to Runway 35. There are approximately 90 aircraft based at South Weymouth NAS, of which approximately 30 are jet-powered. Precision radar instrument approaches are currently approved with a ceiling of 200 feet and visibility ½ mile. During 1960, there were 48,277 aircraft operations at this airport of which 4,507 were precision radar instrument approaches and a substantial number of these precision approaches were conducted when the ceiling and visibility were reported at the currently approved weather minimums.

The Agency study disclosed that aircraft of the types based at and using this airport would be required to pass in dangerous lateral and vertical proximity to the proposed structure or to take diversionary action to avoid it when being operated in normal take-off or landing configurations on Runway 17-35. The aircraft would pass near the proposed structure at low altitudes while climbing or descending when the pilot's attention is directed toward extremely critical phases of flight. Thus, the proposed structure would derogate the safety of aeronautical operations at this airport.

Therefore, pursuant to the authority delegated to me by the Administrator

(14 CFR 626.33; 26 F.R. 5292), it is concluded that the proposed structure, at the location and mean sea level elevation specified herein, would have a substantial adverse effect upon aeronautical operations at South Weymouth NAS, and it is hereby determined that this proposed structure would be a hazard to air navigation.

This determination is effective as of the date of issuance and will become final 30 days thereafter, provided that no appeal herefrom under § 626.34 (26 F.R. 5292) is granted.

Issued in Washington, D.C., on November 8, 1961.

OSCAR W. HOLMES,
Chief,

Obstruction Evaluation Branch.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 14374]

EUGENE R. BURBANK

Order To Show Cause

In the matter of Eugene R. Burbank, Manhattan Beach, California, Docket No. 14374; order to show cause why there should not be revoked the license for Radio Station WP-5512 abroad the vessel "El Barca de Oro".

The Commission, by the Chief, Safety and Special Radio Services Bureau, under delegated authority, having under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of the above-captioned station;

It appearing, that, pursuant to § 1.76 of the Commission's rules, written notice of violation of the Commission's rules was served upon the above-named licensee as follows:

Official Notice of Violation mailed on June 16, 1961, alleging that on May 27, 1961, the license for the radio station aboard the vessel "El Barca de Oro" was not posted, in violation of § 8.102(a) of the Commission's rules; and

It further appearing, that, the above-named licensee, received said Official Notice but did not make satisfactory reply thereto, whereupon the Commission, by letter dated July 17, 1961, and sent by Certified Mail—Return Receipt Requested (No. 074586), brought this matter to the attention of the licensee and requested that such licensee responded to the Commission's letter within fifteen days from the date of its receipt stating the measures which had been taken, or were being taken, in order to bring the operation of the radio station into compliance with the Commission's rules, and warning the licensee that failure to respond to such letter might result in the institution of proceedings for the revocation of the radio station license; and

It further appearing, that receipt of the Commission's letter was acknowledged by the signature of the licensee, E. R. Burbank, on July 19, 1961, to a

Post Office Department return receipt; and

It further appearing, that between July 19, 1961, and July 25, 1961, the licensee replied to the Commission's above-mentioned letter of July 17, 1961, stating that at the time of purchase of the radio aboard the Vessel "El Barca de Oro" "Benrad Inc., San Pedro * * * made application for a radio license for * * * him and that another application for license had been filed "through Benrad Inc., San Pedro" subsequent to the Commission's warning; and

It further appearing, that, on July 25, 1961, the Commission's Marine Supervisor again brought this matter to the attention of the licensee and requested that he advise the San Pedro office when a duplicate license had been received; and

It further appearing, that, although the licensee received the Commission's letter of July 25, 1961, no reply thereto was made; and

It further appearing, that delivery of additional correspondence addressed to the licensee by the Commission on August 25, 1961, was refused; and

It further appearing, that, in view of the foregoing, the licensee has repeatedly violated § 1.76 of the Commission's rules;

It is ordered, This 15th day of November 1961, pursuant to section 312(a) (4) and (c) of the Communications Act of 1934, as amended, and § 0.291(b) (8) of the Commission's statement of delegations of authority, that the said licensee show cause why the license for the above-captioned Radio Station should not be revoked, and appear and give evidence in respect thereto at a hearing to be held at a time and place to be specified by subsequent order; and

It is further ordered, That the Secretary send a copy of this Order by Certified Mail—Return Receipt Requested to the said licensee at 3201 Poinsettia, Manhattan Beach, California, and 410 North Varney, Burbank, California.

Released: November 16, 1961.

Josephson, Carleton A. Soderholm and Royal V. Carley, a partnership, d/b as Fairfield Broadcasting Company, Easton, Connecticut, Docket No. 14171,

File No. BP-14142; for construction permits.

The Hearing Examiner having under consideration the petition for continuance of procedural dates filed in the above-entitled proceeding on November 8, 1961 by Eastern Broadcasting System, Inc.;

It appearing, that all parties consented to grant of said petition except Fairfield Broadcasting Company which applicant neither consented to nor opposed grant;

It further appearing, that good cause for grant of the requested continuance is shown in that the applicants herein¹ are engaged in the making of signal intensity measurements from test transmitter sites and because of some being in the same general area and involving the same frequency conflicts have arisen causing unanticipated delay in the preparation of the engineering evidence for the proceeding;

It is ordered, This 14th day of November 1961 that the said petition is granted and the date herein for exchange of exhibits to be offered in evidence in the presentation of the direct affirmative cases is continued from November 20, 1961 to November 30, 1961; the further prehearing conference presently scheduled for November 24, 1961 is continued to December 1, 1961 commencing at 9:00 a.m.; and the date for commencement of hearing is continued from December 4, 1961 to December 18, 1961.

RADIO AMERICANA, INC.

Order Continuing Hearing

In re application of Radio Americana Inc., Baltimore, Maryland, Docket No. 13245, File No. BP-12962; for construction permit.

The Hearing Examiner having under consideration a motion for modification of hearing schedule filed by the applicant, Radio Americana, Inc., on November 14, 1961, requesting that the hearing schedule in this proceeding be modified by continuing the commencement of the hearing in this proceeding from November 27 to December 13, 1961; and

It appearing, that counsel for the Broadcast Bureau has stated that he does not oppose a grant of the motion; and

It further appearing, that the schedule of dates for exchange of exhibits and notification of witnesses heretofore agreed upon was based upon the commencement of the hearing on November 27 and, thus, such schedule should be modified;

It is, therefore, ordered, This 16th day of November 1961, that the hearing in this proceeding is continued from November 27, 1961, to December 13, 1961, at 10 a.m., in Washington, D.C.; and that the schedule for exchange of further exhibits and notification as witnesses is modified to conform with the present agreement among counsel as to such dates.

CHIEF HEARING EXAMINER

Delegations of Authority

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 15th day of November 1961;

The Commission having under consideration section 0.224 of its Statement of Delegations of Authority, which delegates authority to the Chief Hearing Examiner, and § 1.362 of its rules of practice and procedure, which provides that, upon designation of a broadcast application for hearing, the applicant must give local notice of the hearing; and

It appearing, that occasions may arise where the public interest will be served by, or practicalities may require, publication at a time, a place, or in a manner which varies from the general requirements of § 1.362; and

It further appearing, that, to expedite the conduct of hearing proceedings, the Chief Hearing Examiner should be authorized to rule on petitions requesting permission to give local notice in a manner which varies from that specified in § 1.362; and

It further appearing, that the Chief Hearing Examiner should be authorized to dismiss applications with prejudice for failure to comply with the local notice requirements of § 1.362; and

It further appearing, that the amendments adopted herein pertain to Commission management and organization, and hence that section 4 of the Administrative Procedure Act is not applicable; and

It further appearing, that the amendments adopted herein are issued pursuant to authority contained in sections 4(i), 5(d)(1), 303(r), and 311(a)(2) of the Communications Act of 1934, as amended;

It is ordered, Effective November 27, 1961, that the Commission's Statement of Organization, Delegations of Authority, and Other Information is amended as set forth below.

FEDERAL POWER COMMISSION

[Docket Nos. G-16125 etc.]

ARKANSAS LOUISIANA GAS COMPANY ET AL.¹

Notice of Proceedings and Fixing Time for Intervention²

NOVEMBER 15, 1961.

Respondents in the above-entitled proceedings have heretofore filed proposed increased rates reflecting only reimbursement for the gas gathering tax of one cent per Mcf imposed upon said respondents by the State of Louisiana pursuant to Act. No. 8 of 1958, as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes, 47 La. Rev. Stat. 1950, section 678. Respondents' proposed increased rates were suspended and thereafter were permitted to go into effect subject to refund.

By order issued February 13, 1961, in the above-entitled proceedings, the Commission required respondents to refund all tax reimbursement amounts collected subject to refund in these proceedings after the section 678 tax was declared unconstitutional. However, on June 6, 1961, the Commission modified its order of February 13, 1961, as to all of the above-entitled proceedings by limiting respondents' obligation to refund to those amounts actually refunded by the State of Louisiana to the respective respondents. Subsequently, on August 30, 1961, the Commission reopened all of the above-entitled proceedings.

Take notice that notices of intervention or petitions to intervene may be filed in any of the above-entitled proceedings with the Federal Power Commission, Washington 25, D.C., in accordance with the Commission's rules of practice and procedure on or before December 8, 1961.

JOSEPH H. GUTRIDE,
Secretary.

[Project No. 2246]

YUBA COUNTY WATER AGENCY**Notice of Application for Amendment
of Application for License**

NOVEMBER 15, 1961.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U.S.C. 791a-825r) by Yuba County Water Agency (correspondence to Eugene L. Gray, Secretary, Yuba County Water Agency, P.O. Box 28, Marysville, California) for amendment of its application for license for proposed Project No. 2246, known as "Yuba River Development," to be located on Yuba River and its tributaries, North Yuba River, Middle Yuba River, and Oregon Creek, in Counties of Yuba, Nevada and Sierra, California, in the vicinity of Camptonville, Dobbins, Marysville, North San Juan, and Smartville, California, and affecting lands of the United States within Plumas and Tahoe National Forest, and utilizing the Englebright Dam of the California Debris Commission, an agency of the Corps of Engineers, and affecting land adjacent to such dam.

The amendment to application for license would replace the Irrigation Dam and Reservoir, originally to be located on the Yuba River approximately one mile downstream from Parks Bar Bridge on State Highway #20, with Timbuctoo Afterbay Dam consisting of an impervious core, rockfill dam across Yuba River, about 2.5 miles upstream from the Parks Bar Bridge, approximately 83 feet high above streambed and about 750 feet long, with independent spillway and ogee weir in left abutment; and a reservoir with gross storage capacity of 5,700 acre-feet and surface area of 200 acres at normal operating surface at elevation 305 feet.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last day upon which protests or petitions may be filed is January 18, 1962. The application is on file with the Commission for public inspection.

[Docket No. DA-57-New Mexico]

JEMEZ RIVER BASIN, NEW MEXICO
**Lands Withdrawn for Water-Power
Purposes**

NOVEMBER 15, 1961.

The Geological Survey, United States Department of the Interior, has transmitted to the Commission a report resulting from its study of the lands withdrawn for water-power purposes in the Jemez River Basin, New Mexico, in which it recommends the outright restoration of all of the withdrawn lands in

the basin and has requested Commission concurrence in their outright restoration.

The hereinafter-described lands are withdrawn in Power Site Classification No. 363, dated July 24, 1944, or in Water Power Designation No. 1, dated August 7, 1916.

The lands described as being in Tps. 18 and 19 N., R. 3 E., lie within the boundaries of the Santa Fe National Forest and many of them have been further reserved, and are now being used, for administrative and recreational purposes.

Some of the lands in T. 13 N., R. 3 E., and Tps. 13 and 14 N., R. 4 E., are further reserved for the use of the Department for the Army in connection with the Jemez Canyon Dam and Reservoir Project.

It appears that the water flow of the Jemez River and tributaries is erratic, being mostly of a flash flood type, and that it is not adequate to satisfy present irrigation requirements of the area.

No plan is known that proposes use of the lands for power development, the water-power potential of the lands being negligible.

The Commission finds: Inasmuch as the following-described lands have negligible or no value for purposes of power development, it has no objection to the revocation by the Secretary of the Interior of the power withdrawals pertaining to said lands:

[Docket No. DA-179-Washington]

WASHINGTON**Lands Withdrawn**

NOVEMBER 15, 1961.

The Bureau of Land Management, United States Department of the Interior, filed a request (Washington 03851), on behalf of the Department of Game, State of Washington, for Commission comments on a proposed conveyance to the State agency of the following-described lands:

WILLAMETTE MERIDIAN, WASHINGTON

T. 15 N., R. 19 E.,
Sec. 28, E½NW¼ and SW¼.

The State agency proposes to acquire the lands under the provisions of the Recreation and Public Purposes Act of June 14, 1926 (44 Stat. 741) as amended, to improve fishing facilities.

The lands are withdrawn in Power Site Reserve No. 44, dated July 2, 1910, based on Temporary Power Site Withdrawal of September 3, 1909.

The lands lie on both sides of the Yakima River, the nearest tract being located about a quarter-mile upstream from the Bureau of Reclamation's Roza dam, constructed primarily for irrigation purposes. No plans are known to be under consideration at present for any expansion of the Roza dam and reservoir, nor are any plans known for the construction of any additional upstream reclamation projects.

A possible storage site is located about three miles above the lands in connection with which power might be developed through a conduit system affecting the lands. However, such a project would involve the costly relocation of U.S. Highway No. 97 lying on the side of Yakima River and main line tracks of the Northern Pacific Railway lying on the other side of the river.

There is no reason to believe that use of the lands by the Washington Department of Game will adversely affect their present development for irrigation and incidental power purposes. Inasmuch as the power potential of the lands appears to be fully utilized, and their value for additional power purposes is negligible revocation of the power withdrawal subject to the Bureau of Reclamation's rights and interests in the Roza project, as hereinafter provided, is appropriate and desirable.

The Commission finds: It has no objection to revocation by the Secretary of the Interior of Power Site Reserve No. 44 insofar as it affects the above-described lands, subject to the prior right of the United States and its successors

to occupy and use such portions thereof as are necessary in the operation and maintenance of the Bureau of Reclamation's Roza dam and reservoir, and subject to the further condition that the United States and its successors shall not be held liable for any damage to any structures or improvements constructed by the Washington Department of Game resulting from such operation and maintenance.

By the Commission.

Secretary.

UNITED CALIFORNIA BANK

Order Denying Application for Approval of Merger

In the matter of the application of United California Bank for prior consent to merge with The First National Bank of La Verne:

There has been filed with the Board of Governors, pursuant to section 18(c) of the Federal Deposit Insurance Act (12 U.S.C. 1828(c)), an application for the Board's prior consent to the merger of The First National Bank of La Verne, La Verne, California, into and with United California Bank, Los Angeles, California, under the charter and title of the latter. Upon consideration of all relevant materials in the light of the factors set forth in said section 18(c), including reports by the Comptroller of the Currency, the Federal Deposit Insurance Corporation, and the Department of Justice on the competitive factors involved in the proposed merger:

It is hereby ordered, For the reasons set forth in a statement¹ of the Board of this date, that the said application be and hereby is denied.

Dated at Washington, D.C., this 16th day of November 1961.

By order of the Board of Governors.

ALEXANDRIA, BARCROFT AND WASHINGTON TRANSIT CO.

Notice of Filing of Petition

NOVEMBER 17, 1961.

Petition for Declaratory Order by Alexandria, Barcroft and Washington Transit Company, Alexandria, Va. Petitioner's attorney: S. Harrison Kahn, 1110-14 Investment Building, Washington 5, D.C. By petition dated September 16, 1961, petitioner states that the regular-route operations of Alexandria, Barcroft and Washington Transit Company, a motor common carrier of passengers, are conducted between the District of Columbia, on the one hand, and, on the other, points in Arlington and Fairfax Counties and the City of Alexandria, Va. Petitioner further states that the issue presented to the Commission in the subject petition is whether A.B. & W. Transit Company is required to comply with the rules and regulations of the Interstate Commerce Commission affecting transportation under the jurisdiction of the Washington Metropolitan Area Transit Commission. Petitioner requests the Commission issue a declaratory order removing any uncertainty in the jurisdiction of the Interstate Commerce Commission over the operations of A.B. & W. Transit Company with respect to the filing of reports and records, and issue such further order or orders

as may be deemed necessary in the premises.

Note: Petitioner conducts operations pursuant to the authority in Certificate No. MC 1800 and Subs thereunder.

Any person or persons wishing to make representations with regard to the issues presented by petitioner as outlined above, may do so by the submission of written data, views, or arguments. An original and five copies of such data, views, or arguments shall be filed with the Secretary of the Commission on or before December 22, 1961.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-3848]

APEX MINERALS CORP.

Order Summarily Suspending Trading

NOVEMBER 16, 1961.

The common stock, \$1 par value, of Apex Minerals Corporation, being listed and registered on the San Francisco Mining Exchange, a national securities exchange; and

The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on such Exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion further that such suspension is necessary in order to prevent fraudulent, deceptive or manipulative acts or practices, with the result that it will be unlawful under section 15(c)(2) of the Securities Exchange Act of 1934 and the Commission's Rule 15c2-2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of such security, otherwise than on a national securities exchange;

It is ordered. Pursuant to section 19 (a)(4) of the Securities Exchange Act of 1934 that trading in said security on the San Francisco Mining Exchange be summarily suspended in order to prevent fraudulent, deceptive or manipulative acts or practices, this order to be effective for a period of ten (10) days, November 17, 1961, to November 26, 1961, both dates inclusive.

By the Commission.
